

CONTENTS

1.	Introduction	1
2.	Apparatus	3
3.	Determination of the Melting Point	8
4.	Behaviour of the Substances during Heating	14
5.	Observations on the Solidified Melt	20
6.	Determination of the Refractive Index of the Melt	22
7.	Mixed Melting Point	26
8.	Eutectic Temperature	28
9.	Purity Testing	32
10.	Polymorphism	34
11.	Contact Method	43
12.	Microthermoanalysis	56
13.	Identification of Mixtures	58
14.	Drawing off the Eutectic Melt and Melt Filtration	60
15.	Crystal Morphology	62
16.	Characteristic Crystal Patterns	63
17.	Microchemical Reactions	67
18.	UV Spectroscopy	71
19.	Observations on the Use of the Identification Table	72
20.	Identification Table for the Hot Stage	74
21.	Kofler Hot Bench	359
22.	Alphabetical Listing of Substances with Melting Points	385
	Index	407
