

CONTENTS

	Preface to Fifth Edition	v
1	Introduction mode of action of drugs	1
2	metabolism of drugs	19
3	Structure and activity	37
4	General anesthetics	53
5	Local anesthetics	66
6	Sedatives and hypnotics	87
7	Antipyretics and analgesics	110
8	Analgesics of the alkaloid group and related substances	142
9	Analeptic drugs	170
10	Synthetic drugs of adrenergic action	187
11	synthetic drugs producing adrenergic block	213
12	Synthetic drugs of cholinergic action	224
13	Anticholinergic drugs	240
14	Anticholinergic drugs	240
15	Anticonvulsant drugs	282
16	Drugs affecting the circulatory system cardiovascular drugs	288
17	Diuretics	309
18	Coagulants, anticoagulants and quasi-mechanical drugs	323
19	Drugs affecting the digestive tract	340
20	Thyroxine, antithyroid and antimetabolic drugs, and carcinogens	354
21	Vitamins	373
22	Hormones and steroid substances	414
23	General antiseptics	449
24	The sulphonamides	474
25	Organo-metallic compounds	487
26	Antimalarial drugs	518
27	Trypanocides	546
28	Anthelmintics and other anti-parasitic drugs	570
29	Antitubercular and antileprotic drugs	598
30	Antibiotics	609
	Index	643
