<b>I. INTRODUCTION</b> .....	<b>1</b>
1. Penetration Enhancer Classification.....	3
<i>Brian W. Barry</i>	
2. Structure–Activity Relationship of Chemical Penetration Enhancers.....	17
<i>Narayanasamy Kanikkannan, R. J. Babu, and Mandip Singh</i>	
3. Quantitative Structure–Enhancement Relationship and the Microenvironment of the Enhancer Site of Action .....	35
<i>S. Kevin Li and William I. Higuchi</i>	
4. The Role of Prodrugs in Penetration Enhancement.....	51
<i>Kenneth B. Sloan and Scott C. Wasdo</i>	
<b>II. VEHICLE EFFECTS IN PENETRATION ENHANCEMENT</b> .....	<b>65</b>
5. Penetration Enhancement by Skin Hydration .....	67
<i>Jin Zhang, Carryn H. Purdon, Eric W. Smith, Howard I. Maibach, and Christian Surber</i>	
6. Enhancement of Delivery with Transdermal Sprays .....	73
<i>Barrie C. Finnin and Jonathan Hadgraft</i>	
7. Hydrogel Vehicles for Hydrophilic Compounds .....	83
<i>Teresa Cerchiara and Barbara Luppi</i>	
8. Enhanced Skin Permeation Using Ethosomes.....	95
<i>Elka Toutou and Biana Godin</i>	
9. Microemulsions in Topical Drug Delivery .....	109
<i>Sari Pappinen and Arto Urtti</i>	
10. Nanoparticles as Carriers for Enhanced Skin Penetration.....	117
<i>Shozo Miyazaki</i>	
11. Solid Lipid Nanoparticles for Topical Delivery.....	125
<i>Zhinan Mei</i>	

12.	Fatty Alcohols and Fatty Acids .....	137
	<i>R. J. Babu, Mandip Singh, and Narayanasamy Kanikkannan</i>	
13.	Essential Oils and Terpenes .....	159
	<i>Rashmi A. Thakur, Yiping Wang, and Bozena B. Michniak</i>	
<b>III.</b>	<b>PHYSICAL METHODS OF PENETRATION ENHANCEMENT.....</b>	<b>175</b>
14.	Iontophoresis: Clinical Applications and Future Challenges .....	177
	<i>Nada Abla, Aarti Naik, Richard H. Guy, and Yogeshvar N. Kalia</i>	
15.	Electroporation .....	221
	<i>Babu M. Medi and Jagdish Singh</i>	
16.	Microneedles.....	239
	<i>Mark R. Prausnitz, John A. Mikszta, and Jennifer Raeder-Devens</i>	
17.	Vesicles under Voltage.....	257
	<i>Michael C. Bonner and Brian W. Barry</i>	
<b>IV.</b>	<b>ASSESSMENT OF PENETRATION ENHANCEMENT.....</b>	<b>269</b>
18.	Mechanistic Studies of Permeation Enhancers .....	271
	<i>S. Kevin Li and William I. Higuchi</i>	
19.	Penetration Enhancer Assessment by Corneoxenometry .....	293
	<i>Claudine Piérard-Franchimont, Frédérique Henry, Emmanuelle Uhoda, Caroline Flagothier, and Gérald E. Piérard</i>	
20.	Assessment of Vehicle Effects by Skin Stripping .....	299
	<i>Carryn H. Purdon, Carolina Pellanda, Christian Surber, and Eric W. Smith</i>	
21.	The Use of Skin Alternatives for Testing Percutaneous Penetration .....	311
	<i>Charles Scott Asbill, Gary W. Bumgarner, and Bozena B. Michniak</i>	
22.	High Throughput Screening of Transdermal Penetration Enhancers: Opportunities, Methods, and Applications.....	319
	<i>Amit Jain, Pankaj Karande, and Samir Mitragotri</i>	
23.	Confocal Laser Scanning Microscopy: An Excellent Tool for Tracking Compounds in the Skin.....	335
	<i>Daya D. Verma and Alfred Fabr</i>	
<b>V.</b>	<b>THE RETARDATION OF PERCUTANEOUS PENETRATION .....</b>	<b>359</b>
24.	Fundamentals of Retarding Penetration.....	361
	<i>Jonathan Hadgraft and Barrie C. Finnin</i>	
25.	Retardation Strategies for Sunscreen Agents .....	373
	<i>Carryn H. Purdon, Eric W. Smith, and Christian Surber</i>	
26.	Military Perspectives in Chemical Penetration Retardation.....	385
	<i>Ernest H. Braue, Jr., Bryce F. Doxzon, Horace L. Lumpkin, Kelly A. Hanssen, Robert S. Stevenson, Robin R. Deckert, and John S. Graham</i>	
<b>VI.</b>	<b>COMMERCIAL APPLICATIONS OF PENETRATION ENHANCERS .....</b>	<b>399</b>
27.	Preclinical and Clinical Development of a Penetration Enhancer SEPA 0009 .....	401
	<i>Thomas C. K. Chan</i>	
	Index.....	417
