

## CONTENTS

Chapter I. Electronic Structure and Crystal Chemical Properties of Metals and Their Compounds	1
Chapter II. Conditions of Formation of Metallic Aerosols in the Air of Industrial Rooms in Powder Metallurgy and Allied Plants	39
Chapter III. Morbidity and State of Health of Workers Exposed to Metallic Dust	71
Chapter IV. Toxic Effect of Some Metal Powders and Powder Metallurgy Mixtures	93
Chapter V. Toxic Effect of Refractory Compounds	115
Chapter VI. Toxic Effect of Some Chalcogenides	161
Chapter VII. Theoretical Problems of the Toxicology of Metals and Their Compounds	191
Chapter IX. Measures for Preventing Occupational Diseases among Workers in Powder Metallurgy Plants	231
Conclusion	251
Literature Cited	255
