

## CONTENTS

## PART I. GENERAL

1. 'A Peck of Dirt'	3
2. How Metals Get into Food	15
3. Quality Control	46
4. Food Quality-Analysis of Food	64

## PART II. THE INDIVIDUAL METALS

5. Lead	85
6. Mercury and Cadmium	105
MERCURY	106-114
CADMIUM	116-122
7. The Toxic Metalloids: Arsenic, Antimony and Selenium	123
ARSENIC	123-130
ANTIMONY	130-132
SELENIUM	133-137
8. The Packaging Metals: Aluminium and Tin	138
ALUMINIUM	138-147
9. Transition Metals	148
COPPER	150-155
IRON	157-163
CHROMIUM	164-168
MANGANESE	169-171
COBALT	172-176
NICKEL	176-179
MOLYBDENUM	180-183
10. Other Transition Metals	184
TITANIUM	184-185
VANADIUM	185-187
SILVER	187-189
11. Zinc-The Unassuming Nutrient	190
12. Beryllium, Strontium, Barium and the Other Metals Summing Up	197
BERYLLIUM	198-199
STRONTIUM	200-201
BARIUM	201-203
THE OTHER METALS SUMMING UP	204-208
References	210
Index	227
