

CONTENTS

PART I. GENERAL

1. The Metals we Consume	1
2. How Metals Get into Food	24
3. Protecting the Consumer: Food Legislation	66
4. Metal Analysis of Food	82

PART II. THE INDIVIDUAL METALS

5. Lead	105
6. Mercury and Cadmium	131
MERCURY	132-140
CADMIUM	141-147
7. The Toxic Metalloids: Arsenic, Antimony and Selenium	152
ARSENIC	152-159
ANTIMONY	161-163
SELENIUM	164-171
8. The Packaging Metals: Aluminium and Tin	176
ALUMINIUM	178-184
TIN	186-191
9. Transition Metals	194
COPPER	196-201
IRON	202-209
CHROMIUM	210-215
MANGANESE	216-219
COBALT	220-222
NICKEL	222-225
MOLYBDENUM	226-229
10. The Other Transition Metals and Zinc	235
TITANIUM	236-237
VANADIUM	238-240
SILVER	241-242
TUNGSTEN	243-244
ZINC	246-252
11. Beryllium, Strontium, Barium and the Other Metals Summing Up	255
BERYLLIUM	255-258
STRONTIUM	258-260
BARIUM	260-262
THE OTHER ELEMENTS SUMMING UP	263-269
Index	271
