<i>Preface</i>	v
----------------	---

SCIENCE AND PRINCIPLES OF TOXICOLOGY

1. The Science of Toxicology	1
2. Principles of Toxicology	11
3. Manifestations of Organ Toxicity	41
4. Carcinogenesis, Mutagenesis, and Teratogenesis	53
5. Biotransformation of Xenobiotics	75
6. Measurement of Toxicants and Toxicity	119

TOXICITY IN FOODS

7. Dietary Constituents	163
8. Food Additives	219
9. Toxicants Resulting from Food Processing	285
10. Toxicants and Antinutrients in Plant Foods	321
11. Fungal Toxins	387
12. Food-Borne Infections	457

x	Contents
13. Bacterial Toxins	583
14. Seafood Toxins and Poisoning	687
15. Mushroom Toxins	755
16. Toxic Metals, Radionuclides, and Food Packaging Contaminants	783
17. Pesticides and Industrial Contaminants	813
18. Drug Residues	865
<i>Index</i>	881
