

**CONTENTS**

I.	Viral and Rickettsial Diseases	
1.	Hepatitis A and E Viruses	1
2.	Norwalk Virus and the Small Round Viruses Causing Foodborne Gastroenteritis	57
3.	Rotavirus	81
4.	Tickborne Encephalitis	113
5.	Other Foodborne Viral Diseases	137
6.	Medical Management of Foodborne Viral Gastroenteritis and Hepatitis	145
7.	Epidemiology of Foodborne viruses	159
8.	Laboratory Methodology	177
II.	Parasitic Diseases	
9.	Taeniasis and Cysticercosis	199
10.	Meatborne Helminth Infections: Trichinellosis	255
11.	Fish-and Invertebrate-Borne Helminths	279
12.	Foodborne and Waterborne Zoonotic Protozoa	331
13.	Medical Management	363
14.	Immunodiagnosis of Infections with Cestodes	393
15.	Immunodiagnosis:k Nematodes	429
16.	The Diagnosis of Toxoplasmosis	443
III.	Fungal Diseases	
17.	Mycotoxicoses: The Effects of Mycotoxin Combinations	463
18.	Fusarium	521
19.	Aspergillus	575
20.	Penicillium	617
21.	Mycotoxin Analysis: Immunological Techniques	631
	Index	669
