

CONTENTS

Part I

Food poisoning and food-borne infection

1	Introduction	1
2	Elementary bacteriology	15
3	Bacterial and other microbial causes of food poisoning	25
4	Reservoirs of infection and ways of spread	36
5	The vehicle of infection	51
6	Epidemiology and outbreaks of food poisoning	77
7	Ecology of micro-organisms in food	119
8	Food-borne infection	128

Part II

Food hygiene in the prevention of food poisoning

9	Introduction	141
10	Personal hygiene of the food handler	145
11	Storage and preservation	154
12	Preparation and cooking	164
13	Retail sale and factories	177
14	Cleaning methods	189
15	Sterilization and disinfection (Isobel M. Makurer)	211
16	Kitchen design and equipment	220
17	Control of infestation	251
18	Legislation	263
19	Education	285
	Appendix A Suggested lecture material	297
	Appendix B Travelling and camping	328
	Appendix C A questionnaire for food poisoning outbreaks	333
	Appendix D Suggested bibliography for further reading	334
	Index	337
