

CONTENTS

Section 1: Principles of Safety	1
2: Safe Use of Pesticides on Farms	3
3: Safe Use of Pesticides in the Home and Garden	9
4: Safe Use of Pesticides in Schools	12
5: Safe Use of Pesticides in Vector Control	17
6: Safe Use of Pesticides in Structural Pest Control	20
7: Safe Transportation of Pesticides	23
8: Safe Storage and Disposal of Pesticides	26
9: Safe Practices in the Manufacture, Formulation, and Packaging of Pesticides	29
Figure A: Schematic diagram, liquid formulations	33
B: Schematic diagram, dry formulations	34
C: Schematic process for dry formulations	35
D: Schematic process for dry formulations	36
E: Bag filling exhaust hood (detail)	37
F: Suggested hood for fume and vapor removal during drum filling (detail)	38
G: Suggested dust removal hood for Stokes & Smith packer	39
H: Suggested dust removal hood for drum filling casing at weigh station	40
Section 10: First Aid for Pesticide Injury or Illness	45
11: Medical Supervision of Pesticide Workers and Diagnosis and Treatment of Poisoning: A Guide to Physicians	46
12: What We Do Not Know about the Safe Use of Pesticides	66
13: Pesticides in Water, Air and Soil	70
Appendix	
Table 1: Estimated relative acute toxic hazard of pesticides to pesticide applicators	73
2: Fumigants	73
3: Safety information about pesticides used in vertebrate pest control	80
4: Estimated daily content of DDT and DDE in Complete meals in test cities of the United States	82
5: Concentration of DDT-derived material in body fat of the general population in test cities and areas of the United States	83
6: Concentration of DDT-derived material in body fat of the general population in countries other than the United States	84
7: Concentration of DDT-derived material in body fat of people in the United States with special exposure environmental, occupational or dietary to DDT	85
8: Average concentration of chlorinated hydrocarbon pesticides other than those derived from DDT in body fat of the general population in various countries	85
9: DDT levels in air	86

10: Recommended threshold limit values for selected pesticides in the breathing air of working environments	87
Graph I: ACUTE ORAL AND DERMAL TOXICITY VALUES FOR SOME PHOSPHATE ESTER PESTICIDES	88
II: ACUTE ORAL AND DERMAL TOXICITY VALUES FOR SOME CHLORINATED HYDROCARBON PESTICIDES	89
Item I: List of emergency resources for health agencies	90
II: Recommended references on pesticides for a public health agency	92
