

-      **CONTENTS**

<b>CONTRIBUTORS TO VOLUME II . . . . .</b>	<b>v</b>
<b>FOREWORD . . . . .</b>	<b>vii</b>
<b>PREFACE . . . . .</b>	<b>ix</b>
<b>CONTENTS OF VOLUME I . . . . .</b>	<b>xv</b>
<b>1. The Mode of Action of Poisons by C. P. STEWART and GUSTAV J. MARTIN</b>	
I. Introduction . . . . .	1
II. Enzyme Inhibition . . . . .	3
III. Factors which Influence Inhibition and Its Effects . . . . .	7
IV. Further Examples of Enzyme Inhibition; Antidotes . . . . .	12
V. Conclusion . . . . .	15
References . . . . .	15
<b>✓ 2. Gases, Vapors, Mists, and Dusts by J. C. GAGE</b>	
I. The Importance of Contaminated Atmosphere in Industrial Hygiene . . . . .	17
II. Biochemical Control of Exposure . . . . .	25
III. The Determination of Toxic Substances in the Atmosphere . . . . .	28
References . . . . .	52
<b>3. Identification and Estimation of Volatile Poisons by HENRY C. FREIMUTH</b>	
I. Introduction . . . . .	55
II. Qualitative Tests . . . . .	56
III. Quantitative Procedures . . . . .	69
References . . . . .	83
<b>4. Ethyl Alcohol by R. N. HARGER</b>	
I. Pure Alcohol and Alcoholic Beverages . . . . .	86
II. "Normal" Alcohol . . . . .	88
III. Absorption of Alcohol . . . . .	88
IV. Distribution of Absorbed Alcohol . . . . .	89
V. Fate of Absorbed Alcohol . . . . .	98
VI. Pharmacological and Toxicological Effects . . . . .	104
VII. Determination of Alcohol in Body Materials; General Considerations . . . . .	116
VIII. Directions for Five Methods of Estimating Alcohol in Body Tissues and Fluids . . . . .	126

IX. Breath Alcohol Methods . . . . .	137
X. Medicolegal Interpretation of the Level of Blood Alcohol . . . . .	143
References . . . . .	147
<b>5. Barbiturates</b>	
<i>by A. S. CURRY</i>	
I. Isolation . . . . .	153
II. Identification . . . . .	160
III. Quantitative Determination of Barbiturates . . . . .	174
IV. Interpretation of Results . . . . .	182
V. Conclusion . . . . .	187
References . . . . .	188
<b>6. Acidic and Neutral Poisons (Other than Barbiturates)</b>	
<i>by A. S. CURRY</i>	
I. Introduction . . . . .	193
II. Isolation . . . . .	194
III. Purification . . . . .	196
IV. Identification . . . . .	196
V. Conclusion . . . . .	207
References . . . . .	207
<b>7. Alkaloids and Related Bases: Identification</b>	
<i>by CHARLES G. FARMILO and KLAUS GENEST</i>	
I. General Introduction . . . . .	209
II. Separation and Purification . . . . .	211
III. Identification and Determination . . . . .	229
IV. Biotransformations . . . . .	268
Tables . . . . .	271
Appendix: The Discoveries of Some Alkaloids and Related Substances, Their Tests, and the Chronological Development of Toxicology . . . . .	580
References . . . . .	587
<b>8. Acids and Alkalies</b>	
<i>by VICTOR E. LEVINE</i>	
I. Mineral Acids . . . . .	597
II. Organic Acids . . . . .	626
III. Mineral Alkalies . . . . .	632
References . . . . .	636
<b>9. Chemical Tests for Metallic Poisons</b>	
<i>by ABRAHAM STOLMAN</i>	
I. Reinsch Test . . . . .	640
II. Marsh-Berzelius Test . . . . .	644
III. Gutzeit Test . . . . .	648

## CONTENTS

xiii

IV. Dithizone Method . . . . .	654
V. Special Methods for Determination of Antimony, Barium, Chromium, Cobalt, Gold, Lithium, Manganese, Mercury, and Thallium . . . . .	667
References . . . . .	678

**10. Analysis of Residual Pesticides in Food**

by VICTOR E. LEVINE

I. Introduction . . . . .	681
II. Physical Methods . . . . .	684
III. Cleanup and Result of Chemical Changes in the Pesticide . . . . .	686
IV. Enzymatic Methods of Analysis . . . . .	688
V. The Importance of Metabolites . . . . .	690
VI. Nonspecific Methods for Chlorinated Organic Pesticides . . . . .	693
VII. Qualitative Tests for Rapid Identification of Chlorinated Pesticides . . . . .	694
VIII. Quantitative Determination of the Chloride Ion . . . . .	699
IX. Specific Methods for Chlorinated Pesticides . . . . .	700
X. The Cyclodiene Insecticides . . . . .	707
XI. Organic Phosphorus Pesticides . . . . .	712
XII. Analytical Methods for Organic Phosphorus Pesticides . . . . .	713
XIII. Carbamates . . . . .	717
XIV. Dithiocarbamates . . . . .	718
XV. Organic Pesticides Containing a CN Radical . . . . .	720
XVI. Organic Pesticides Containing a Thiocyanate Radical . . . . .	720
XVII. Determination of Dinitroaromatic Pesticides . . . . .	721
XVIII. Determination of Dinitroaromatic Compounds . . . . .	722
XIX. Miscellaneous Pesticides . . . . .	723
Appendix A: Partial List of Important Halogenated Compounds and Mixtures Used as Pesticides . . . . .	724
Appendix B: Some Important Organic Phosphorus Pesticides . . . . .	730
References . . . . .	731

**11. Poisonous Plants**

by ARTHUR E. SCHWARTING

I. Introduction . . . . .	737
II. Chemical Ontogeny and Taxonomic Distribution . . . . .	738
III. Methods of Identification . . . . .	748
References . . . . .	754

**12. Radioactive Isotopes and Compounds**

by ROBERT E. ZIPF and G. RICHARD GROVE

I. Introduction . . . . .	755
II. Nuclear Energy and Radioactivity . . . . .	758
III. Interaction of Radiation with Matter . . . . .	761
IV. Sources of Exposure and Contact . . . . .	763
V. Radioactive Waste Disposal . . . . .	766
VI. Dosage Rate and Distribution . . . . .	767
VII. Methods of Detection and Measurement . . . . .	769

VIII. Pharmacology and Mechanism of Action . . . . .	774
IX. Handling and Disposal of Bodies and Tissues Containing Radioactive Materials . . . . .	776
X. Pathology; Acute and Chronic Effects of Various Organ Systems . . . . .	778
XI. Medicolegal Interpretation . . . . .	784
References . . . . .	784
<b>13. Miscellaneous Determinations</b>	
<i>by ABRAHAM STOLMAN</i>	
I. Hemoglobin Derivatives . . . . .	785
II. Halides . . . . .	792
III. Porphyrins . . . . .	803
IV. Glucuronic Acid . . . . .	805
References . . . . .	807
<b>14. THE TREATMENT OF ACUTE POISONING</b>	
<i>by E. H. BENSLEY and G. E. JORON</i>	
I. Introduction . . . . .	809
II. Removal and Inactivation of the Poison . . . . .	810
III. Symptomatic Treatment . . . . .	819
IV. Plan of Treatment of a Case of Acute Poisoning . . . . .	824
V. Notes on Individual Poisons and Special Therapeutic Measures . . . . .	827
List of Poisons Discussed . . . . .	827
References . . . . .	847
SUBJECT INDEX . . . . .	853
