Preface to Fifth Edition, ix

Preface to First Edition, x

Part 1 Biology of microorganisms, 1

- 1 Bacteria
W. B. Hugo, 3
- 2 Mycology
R. C. Rees & A. M. Dickinson, 43
- 3 Viruses
D. J. Stickler, 60
- 4 Principles of microbial pathogenicity and epidemiology
P. Gilbert, 82

Part 2 Antimicrobial agents, 97

- 5 Types of antibiotics and synthetic antimicrobial agents
A. D. Russell, 99
- 6 Clinical uses of antimicrobial drugs
R. G. Finch, 134
- 7 Manufacture of antibiotics
G. Fare, 154
- 8 Principles of methods of assaying antibiotics
D. S. Reeves & L. O. White, 166
- 9 Mechanisms of action of antibiotics
P. A. Lambert, 189
- 10 Bacterial resistance to antibiotics
T. J. Franklin, 208
- 11 Chemical disinfectants, antiseptics and preservatives
E. M. Scott & S. P. Gorman, 231
- 12 Evaluation of non-antibiotic antimicrobial agents
W. B. Hugo & A. D. Russell, 258
- 13 Mode of action of non-antibiotic antibacterial agents
W. B. Hugo, 288

14	Resistance to non-antibiotic antimicrobial agents <i>P. A. Lambert</i> , 295
15	Fundamentals of immunology <i>J. R. Furr</i> , 305
16	The 'manufacture and quality control of immunological products <i>F. W. Sheffield</i> , 332
	Part 3 Microbiological aspects of pharmaceutical processing, 351
17	Ecology of microorganisms as it affects the pharmaceutical industry <i>E. Underwood</i> , 353
18	Microbial spoilage and preservation of pharmaceutical products <i>E. G. Beveridge</i> , 369
19	Contamination of non-sterile pharmaceuticals in hospital and community environments <i>R. M. Baird</i> , 391
20	Principles and practice of sterilization <i>S. P. Denyer</i> , 403
21	Sterile pharmaceutical products <i>M. C. Allwood</i> , 428
22	Factory and hospital hygiene and good manufacturing practice <i>S. P. Denyer</i> , 445
23	Sterilization control and sterility testing <i>S. P. Denyer</i> , 458
24	Production of therapeutically useful substances by recombinant DNA technology <i>S. B. Primrose</i> , 471
25	Additional applications of microorganisms in the pharmaceutical sciences <i>P. Williams</i> , 487
	Index, 503
