CHAPTER 1

PREPARATION AND STAINING OF BLOOD FILMS: VENEPUNCTURE

By A. J. Miller

Preparation of the Film.....	1
General Considerations.....	1
Obtaining the Blood.....	3
Fixation of Films.....	11
Cover Glass Method.....	12
Staining Blood Films.....	13
Staining Reticulocytes.....	17
Staining Leukocyte Granules.....	19
Supravital Staining of Leukocytes.....	19
Venepuncture.....	21
Instruments Used.....	21
Technic of Venepuncture.....	23
Arterial Puncture.....	27
Anticoagulants.....	28
Preservatives.....	29
Transportation of Blood.....	30

CHAPTER 2

EXAMINATION OF BLOOD SMEARS

By Francis B. Johnson

General Considerations.....	31
Erythrocytes.....	31
Leukocytes.....	40
Leukocytosis.....	45
Lymphocytes.....	51
Lymphocytosis.....	52
Monocytes.....	52
Monocytosis.....	53
Abnormal Leukocytes.....	54
Platelets.....	56
Examination of Bone Marrow.....	58

CHAPTER 3

TOTAL CELL COUNTING

By Ralph McBurney

Counting Chambers and Pipettes.....	63
Total Cell Counts.....	72

CHAPTER 4

HEMOGLOBIN AND COLOR INDEX

By Roy R. Kracke

Normal Hemoglobin.....	84
Fate of Hemoglobin.....	84
Altered Forms of Hemoglobin.....	85
Methods for Determination....	86
Color Index.....	97
Significance of Color Index....	98

CHAPTER 5

CORPUSCULAR VOLUME: VOLUME INDEX: RETICULOCYTES

By V. P. Sydenstricker

Methods Employed.....	100
Computation of Volume Index.....	103
Interpretation of Findings....	103
Reticulocytes.....	104

CHAPTER 6

ERYTHROCYTE SEDIMENTATION RATE AND FRAGILITY DETERMINATIONS

By George Herrmann

Erythrocyte Sedimentation Rate.....	111
Erythrocyte Fragility Determinations.....	118

CHAPTER 7

LABORATORY TESTS IN DIAGNOSIS AND MANAGEMENT OF HEMORRHAGIC DISEASES

By L. W. Diggs

Coagulation of Blood.....	127
Procedures in Diagnosis..	128
Number of Platelets.....	129
Skin Bleeding Time.....	134
Coagulation Time.....	135
Character of the Clot....	139
Capillary Resistance Test.....	140
Prothrombin.....	142
Fibrinogen.....	145
Calcium.....	146
Hemorrhagic Diseases....	147
Bleeding after Operation.....	154

CHAPTER 8
ANEMIA AND POLYCYTHEMIA

By V. P. Sydenstricker

Red Cell Formation.....	156
Anemia.....	160
Classification of Anemias.....	165
Clinical Types of Anemia.....	166
Polycythemia.....	184

CHAPTER 9

DISORDERS OF WHITE CELLS

(Leukemia: Leukopenia: Infectious Mononucleosis)

By Roy R. Kracke

Leukemia.....	.. 188
Leukopenic States.....	.. 199
Infectious Mononucleosis..	.. 201
Heterophile Antibody Test.....	.. 202

CHAPTER 10

BLOOD GROUPS: BLOOD TYPING: CROSS MATCHING

By Francis P. Parker

General Considerations.....	.. 205
Hemagglutination.....	.. 207
Technic of Blood Grouping.....	.. 209
Determination of Grouping Serum Titre....	.. 209
Technic of Cross Matching.....	.. 213
Sources of Error.....	.. 213
Medico-Legal Application of Blood Groups.....	.. 216
Inheritance of Blood Groups.....	.. 216
Legal Application.....	.. 218

CHAPTER 11

BLOOD PARASITES

By Henry E. Meleney

General Discussion.....	220
Rat Bite Fever....	220
Relapsing Fever....	221
Leptospirosis.....	222
Malaria.....	223
Trypanosomes.....	233
Leishmania.....	236
Histoplasmosis.....	237
Filariae.....	238

CONTENTS

CHAPTER 12

IMMUNOLOGIC TESTS

(Agglutinin: Precipitin: Skin Tests)

By Joel G. Wahlin

General Discussion.....	241
Mechanism of Agglutination.....	241
Technic of Tests.....	243
Preparation of Bacterial Suspensions.....	243
Technic of Macroscopic Tests.....	245
The Microscopic Tests.....	246
Interpretation of Findings.....	250
Opsono-cytophagic Index.....	254
Precipitin Tests.....	255
Diagnostic Skin Tests.....	259
Atopic Allergy.....	259
Bacterial Hypersensitivity.....	266
Hypersensitivity to Animal Parasites.....	269
Test for Antibody Formation.....	270

CHAPTER 13

CLINICAL CHEMISTRY

By Francis P. Parker

Preparation of Blood Filtrates....	273
Nitrogenous Constituents.....	275
Sugar.....	285
Tests of Glucose Tolerance.....	289
Cholesterol.....	292
Amylase.....	296
Iodine.....	299
Calcium.....	300
Phosphorus.....	304
Phosphatase.....	307
Carbon Dioxide Combining Power.....	310
Sodium and Potassium.....	315
Protein.....	316
Chloride.....	320
Bromide.....	322
Ethyl Alcohol.....	323
Sulfanilamide.....	325
Sulfapyridine.....	325
Sulfathiazol.....	327

CHAPTER 14
TESTS FOR LIVER FUNCTION

By Francis P. Parker

General Discussion.....	332
Tests of Biliary Function.....	334
Tests of Carbohydrate Metabolism.....	342
Tests of Excretory Function.....	344
Bromsulphthalein Test.....	346
Rose Bengal Test.....	346
Phenoltetraiodophthalein (Iso-iodeikon) Test.....	348
Tests of Detoxification Action.....	349
Cinchophen Oxidation Test.....	350
Hippuric Acid Synthesis Test.....	351
Selection of Tests for Use.....	352

CHAPTER 15
EXAMINATION OF URINE

By Alfred P. Briggs

Urine Formation.....	354
Collection of Specimens...	354
Physical Examination....	356
Chemical Examination....	360
Spectroscopic Examination.....	375
Microscopic Examination..	378
Bacteriologic Examination.....	391

CHAPTER 16
RENAL FUNCTION TESTS

By George Herrmann

General Discussion.....	395
Specific Gravity Tests.....	395
Volume Output Tests.....	395
Concentration Diuresis Tests.....	397
Phenolsulphonophthalein Test.....	397
Fifteen Minute PSP Test.....	400
Non-Protein-Nitrogen in Blood Serum.....	400
Urea Clearance Test.....	402

CHAPTER 17
EXAMINATION OF FECES

By Henry E. Meleney

General Considerations...	404
Macroscopic Examination.....	404

CHAPTER 21

TRANSUDATES: EXUDATES; SKIN AND TISSUE SCRAPINGS

By Francis B. Johnson

General Considerations.....	522
Obtaining Puncture Fluids.....	522
Characteristics of Transudates and Exudates.....	523
Methods of Examination.....	524
Pleural Effusions.....	527
Peritoneal Effusions.....	530
Pericardial Effusions.....	530
Exudates of Skin and Mucous Membranes.....	531
Examination for Diphtheria.....	534
Genito-Urinary Tract.....	536
Trichomonas Vaginalis.....	537
Chancroidal Infections.....	538
Venereal Lymphogranuloma (Lymphopathia Venereum).....	538
Tissue Scrapings.....	538

CHAPTER 22

THE DIAGNOSIS OF VENEREAL LESIONS

By Emmerich von Haam

Syphilis.....	543
Dark Field Examination.....	543
Staining of the Treponema Pallida.....	549
Histopathology of Syphilis.....	552
Gonorrhea.....	554
Chancroid.....	558
Venereal Fusospirochetosis.....	561
Granuloma Inguinale.....	564
Venereal Lymphogranuloma (Lymphopathia Venereum).....	566

CHAPTER 23

SEROLOGIC TESTS FOR SYPHILIS

By I. Davidsohn

Principles of Serologic Reactions.....	575
Collection of Blood.....	577
Preparation of the Serum.....	578
Preparation of Reagents.....	578
Cleansing of Glassware.....	581
Kolmer Complement Fixation Test.....	582
Quantitative Test.....	588
Qualitative Test.....	590
Eagle Wassermann Test.....	593
Blood.....	594
Spinal Fluid.....	594

Kahn Test.....	601
Standard Diagnostic Test—Blood.....	604
Standard Diagnostic Test—Spinal Fluid.....	610
Presumptive Kahn Test.....	612
Kline Diagnostic and Exclusion Test.....	612
Eagle Flocculation Test.....	617
Interpretation of Serologic Tests.....	620

CHAPTER 24

THE ASSAYS OF HORMONES AND VITAMINS

By Emmerich von Haam

General Introduction.....	623
The Gonadotropic Hormone.....	625
The Female Sex Hormone.....	630
The Corpus Luteum Hormone.....	633
The Male Sex Hormone.....	635
Vitamin A.....	638
Vitamin B ₁	639
Vitamin C.....	641

CHAPTER 25

MISCELLANEOUS TESTS

By Ralph McBurney

Pregnancy Test of Friedman.....	645
Rabies.....	651
Blood Cultures.....	658
Preparation of Autogenous Vaccine.....	663
Guinea Pig Inoculation for Diagnosis of Tuberculosis.....	669
Examination of Seminal Fluid.....	670
Culturing Under Increased Carbon Dioxide Tension and Anaerobic Conditions.....	672

CHAPTER 26

LABORATORY EXAMINATIONS IN GENERAL PRACTICE

By George Herrmann

Routine Examinations.....	677
Infectious Diseases.....	677
Kidney Diseases.....	679
Renal Function Tests.....	680
Metabolic Diseases.....	682
Blood Diseases.....	684
Gastrointestinal Diseases.....	688
Biliary Tract and Liver Disease.....	690
Diseases Producing Transudates and Exudates.....	691
Diseases of Central Nervous System.....	693
Coma.....	696

CONTENTS

xvii

APPENDIX A

LABORATORY EQUIPMENT AND MAINTENANCE: USE AND CARE
OF THE MICROSCOPE

By A. J. Miller

The Physicians Laboratory	697
Equipment of Laboratory	702
Selection of Microscope	708
Use and Care of Microscope	708

APPENDIX B

SOLUTIONS: WEIGHTS AND MEASURES: NORMAL SOLUTIONS

By Joel G. Wahlin

Standard Solutions and Indicators	723
Preparation of Standard Normal Solutions	724
Miscellaneous Reagents	725
International Atomic Weights	727
Temperature Conversion Formulae	729
Metric Weights and Measures	729
Normal Standards	730

APPENDIX C

BACTERIOLOGIC STAINS AND STAINING METHODS

By W. Elizabeth Gambrell

Dye Solubilities	734
Stains	734
Staining Methods	736
Gram-positive and Gram-negative Bacteria	737

APPENDIX D

PREPARATION OF CULTURE MEDIA

By W. Elizabeth Gambrell

Culture Media	740
Titration of Culture Media	747
Selection of Culture Media	749

INDEX	751
-----------------	-----
