

TABLE OF CONTENTS

Introduction	vi
Jeremiah R. Lynch	

SESSION I - EPIDEMIOLOGY

Mortality Patterns Among Textile Workers	1
Susan M. Daum, M.D., Harry Heimann, M.D., Frank Damon, B.S., Elihu Richter, Ph.D., and Irving J. Selikoff, M.D.	
Prevalence of Byssinosis in Cotton Gins in Lower Rio Grande Valley of Texas and Messilla Valley of New Mexico	7
Alan Palmer, Ph.D. and Peter S. Herwitt, M.D.	
Experience with Medical Surveillance Programs	17
Harold R. Imbus, M.D., Sc.D.	
Determinants of Respiratory Disease Among Cotton Textile Workers	27
James A. Merchant, M.D., Dr.P.H., William M. O'Fallon, Ph.D. John C. Lumsden, B.Ch.E., and Karen T. Copeland, B.A.	
Epidemiologic Studies in Cotton and Flax Industries	41
Madbuli H. Noweir, Sc.D.	
Epidemiology - Floor Discussion	66
John C. Lumsden, Moderator	

SESSION II - ETIOLOGY

Some Biologic Changes in Guinea Pigs Exposed to Cotton and Flax Dusts	71
Madbuli H. Noweir, Sc.D.	
Influence of Cotton Dust Inhalation on Free Lung Cells in Rats and Guinea Pigs	87
Richard F. Walker, Ph.D., Gene Eidson, B.S., and John D. Hatcher, Ph.D.	
Bacterial Contamination of Cotton as a Factor Determining its Pulmonary Toxicity	
Ragnar Rylander and Marie-Claire Snella	
Alternative Methods of Exposure in Provocative Tests in Byssinosis - Preliminary Observations	
John F. Gamble, M.A., M.S.P.H., Janet F. Fischer, M.D., and Mario C. Battigelli, M.D.	
ATMI/IHF Study of U.S. Cotton Textile Workers	131
John A. Jurgiel	
Leucocyte Recruitment by Agents from Cotton Dust	150
K. H. Kilburn, M.D., W. N. McKenzie, M.S., S. C. Northrup, Ph.D., L. P. Presant, A.B.	

Patho-Physiologic Studies in Byssinosis

Russel A. Harley, M.D.

Immunological Studies in Byssinosis/Serum IgE Concentration

Sterling K. Ainsworth, Ph.D., Russel A. Harley, M.D., and
John D. Hatcher, Ph.D.

Etiology - Floor Discussion

Alan D. Stevens, Ph.D., Moderator

SPECIAL SESSION

The NIOSH Criteria Document on Cotton Dust, Panel Discussion

173

Cois Brown, Moderator

Howard Ayer, Kaye H. Kilburn, M.D., C. Ray McClure, John C. Lumsden,
George Perkel, and Edward Underwood, M.D., Panel Members

SESSION III - ENVIRONMENTAL FACTORS

Genetic Plant Characteristics and Cultural Practices that Affect Trash
Content in Cotton Fibers

W. H. Wessling, Ph.D.

A Survey of the Volatile Components of Cotton Dust

Paul A. Hedin, A. C. Thompson, and R. C. Gueldner

Three Water-Soluble Fluorescent Pigments from Gossypium Bracts

R. D. Stipanovic and P. J. Wakelyn

Identification of the Botanical Origin of Visible Wastes From the
Shirley Analyzer

P. R. Morey, R. M. Bethea, I. W. Kirk, and P. J. Wakelyn

Environmental Factors - Floor Discussion

267

Jeremiah R. Lynch, Moderator

SESSION IV - COTTON DUST SAMPLING

Physical Characteristics of Cotton Dust Generated in Different
Processing Areas of a Cotton Mill

271

John D. Hatcher, Ph.D.

Particle Size Distribution Procedure for Cotton Gin Dust

284

Calvin B. Parnell, Jr., Ph.D. and Roy V. Baker

Effect of Operational Parameters on Vertical Elutriator Performance
for Cotton Dust Sampling

285

Robert M. Bethea and Phillip R. Morey

A Comparative Study of Different Sampling Methods for the Assessment Cotton Dust Levels in the Workplace Parker C. Reist, Sc.D. and James B. Smith	328
The Development and Evaluation of a New Portable Vertical Elutriator George A. Carson, Ph.D. and Laurence C. Doemeny, Ph.D.	338
Monitoring Dust with a Vertical Elutriator and the GCA Dust Monitor John D. Neefus	
Cotton Dust Sampling - Floor Discussion Cois Brown, Moderator	363

SESSION V - THE ENVIRONMENT AND ITS CONTROL

Respirable Dust Levels Developed While Processing Cotton in a Model Card Room S. P. Hersh, R. E. Fornes, and E. V. Caruolo	
Levels of Cotton Dust in Experimental Card Room as Influenced by Production and Processing Parameters Joseph B. Cocke and John D. Hatcher	
Engineering Controls for Cotton Dust in Yarn Manufacturing Plants R. H. Hocutt	
The Environment and Its Control - Floor Discussion Robert T. Hughes, Moderator	

CONFERENCE SUMMARY

The ACGIH Symposium on Cotton Dust - Summary S. A. Roach, Ph.D.	431
