

CONTENTS

1	Dietary Effects on Detoxification Processes	1-26
2.	Effect of Nutrition on Monooxygenation and Conjugation in the Liver	41-58
3.	Metabolic and Nutritional Effects of Ethanol	63-89
4.	Effects of Malnutrition on Drug Metabolism and Toxicity in Humans	105-123
5.	Nutritional Influences on Chromatin: Toxicological Implications	129-147
6	Mutagens in Cooked Foods	157-167
7	Allergic and Sensitivity Reactions to Food Components	173-193
8	Dietary Caffeine and Its Toxicity	199-217
9	The Toxicology of Dietary Tin, Aluminum, and Selenium	223-240
10	Toxicology of Pesticide Residues in Foods	249-270
11	Nutritional Importance of Pesticides	281-286
	Index	289
