

# Table of Contents

INTRODUCTION .....	1
--------------------	---

## CHAPTER 1 – INTRODUCTION

1. The ABCs of SPFs: An Introduction to Sun Protection Products, <i>Schueller and Romanowski</i> .....	3
2. The South Beach Sunscreen Survey 2001, <i>Vaughan et al.</i> .....	11

## CHAPTER 2 – EFFECTS OF UV-DAMAGE

1. Sun Damage from Glycolic Acid Use, <i>Tsai</i> .....	27
2. UV Damage on Human Hair, <i>Gozenbach et al.</i> .....	31
3. Wrinkles from UVA Exposure, <i>Motoyoshi et al.</i> .....	43

## CHAPTER 3 – TANNING

1. Ascorbic Acid and Its Derivatives in Cosmetic Formulations, <i>Campos and Silva</i> .....	57
2. Self-Tanners: Formulating with Dihydroxyacetone, <i>Chaudhuri and Hwang</i> .....	63
3. Substantiating Claims for a Tanning Magnifier, <i>Guglielmini</i> .....	77
4. Inhibitory Effects of <i>Ramulus Mori</i> Extracts on Melanogenesis, <i>Kim and Lee</i> .....	87

## CHAPTER 4 – FILTERS AND BLOCKERS

1. BEMT: An Efficient Broad-Spectrum UV Filter, <i>Mongiati et al.</i> .....	93
2. Pigments as Photoprotectants, <i>Ginestar</i> .....	103
3. Safety and Efficacy of Microfine Titanium Dioxide, <i>Christ</i> .....	111
4. Designing Broad-Spectrum UV Absorbers, <i>Osterwalder and Herzog</i> ..	119
5. Boldine as Sunscreen, <i>Hildago et al.</i> .....	129

## CHAPTER 5 – STABILITY OF FILTERS

1. A New Photostabilizer for Full Spectrum Sunscreens, <i>Bonda and Steinberg</i> .....	137
2. Stability Analysis of Emulsions Containing UV and IR Filters, <i>Santoro et al.</i> .....	153
3. Photostability of Methyl Anthranilate in Different Formulations, <i>Ozer et al.</i> .....	163
4. Photostability of Sun Filters Complexed in Phospholipidsor Beta-Cyclodextrin, <i>Citernes</i> .....	171

## CHAPTER 6 – PHOTOPROTECTION

1. Green Tea and Skin Photoprotection, <i>Katiyar and Elmets</i> .....	183
2. Artemia Extract: Toward More Extensive Sun Protection, <i>Domloge et al.</i> .....	191
3. Heat- and UV-Stable Cosmetic Enzymes from Deep Sea Bacteria, <i>Mas-Chamberlin et al.</i> .....	205
4. A Photoprotection Polymer for Hair Care, <i>Hessefort et al.</i> .....	217
5. Protecting Against UV-Induced Degradation and Enhancing Shine, <i>Maillan et al.</i> .....	229
6. Photoprotection from Ingested Carotenoids, <i>Heinrich et al.</i> .....	239

## CHAPTER 7 – FORMULATING

1. Sunscreen Formulation and Testing, <i>Caswell</i> .....	249
2. Formulating Water-Resistant Sunscreen Emulsions, <i>Klein</i> .....	261
3. Hydrogenated Polydecenes and High-SPF Physical Sunscreens, <i>Rigano et al.</i> .....	265
4. Controlling the Spreading of Sunscreen Products, <i>Vaughan et al.</i> ..	273
5. Sunscreen Formulas with Multilayer Lamella Structure, <i>Gao et al.</i> ..	283

6. Film-formers Enhance Water Resistance and SPF in Sun Care Products, <i>Hunter and Trevino</i> .....	297
7. A New Phosphate Emulsifier for Sunscreens, <i>Gallagher</i> ..	307
8. Formulating Water-Resistant TiO <sub>2</sub> Sunscreens, <i>Hewitt</i> ....	317
9. Sunscreen Interactions in Formulations, <i>Johncock</i> .....	325

## CHAPTER 8 – SKIN DELIVERY

1. Cyclodextrins in Skin Delivery, <i>Loftsson</i> .....	337
--	-----

## CHAPTER 9 – TESTING

1. A Laboratory Method for Measuring the Water Resistance of Sunscreens, <i>Markovic et al.</i> .....	347
2. Photoaging and Photodocumentation, <i>Pagnoni</i> .....	355
3. Determination of the In Vitro SPF, <i>Pissavini et al.</i> .....	
4. Quality Comparison of w/o and o/w Photoprotection Creams, <i>Silva et al.</i> .....	379
5. Quantifying Benzophenone-3 and Octyl Methoxycinnamate in Sunscreen Emulsions, <i>Santoro et al.</i> .....	385
6. Photostability Testing of Avobenzone, <i>Sayre and Dowdy</i> .....	391

## CHAPTER 10 – PHOTOAGING

1. Treatment of Photoaged Hands, <i>Green et al.</i> .....	
2. Defending Against Photoaging: A New Perspective for Retinol, <i>Jentzch et al.</i> .....	407
3. Participation of Metalloproteinases in Photoaging, <i>Rieger</i> .....	415
