

## CONTENTS

## PERSPECTIVES

1. Cancer Chemoprevention by Phytochemicals in Fruits and Vegetables: An Overview	2
2. Effects of Food Phytochemicals on Xenobiotic Metabolism and Tumorigenesis	17
3. Micronutrients in Cancer Prevention	49
4. Antimutagen and Anticarcinogen Research in Japan	65

## SULFUR-CONTAINING PHYTOCHEMICALS

## IN GARLIC AND ONIONS

5. Flavorants from Garlic, Onion, and Other Alliums and Their Cancer-Preventive Properties	84
6. Inhibition of Chemical Toxicity and Carcinogenesis by Diallyl Sulfide and Diallyl Sulfone	97
7. Breath Analysis of Garlic-Borne Phytochemicals in Human Subjects: Combined Adsorbent Trapping and Short-Path Thermal Desorption Gas Chromatography-Mass Spectrometry	102
8. Sulfur Chemistry of Onions and Inhibitory Factors of the Arachidonic Acid Cascade	
9. Vinylthiins in Garlic and Japanese Domestic Allium ( <i>A. victorialis</i> )	128
10. Thermal Decomposition of Alliin, the Major Flavor Component of Garlic, in an Aqueous Solution	144

## OTHER SULFUR-CONTAINING PHYTOCHEMICALS

11. Chemoprotection by 1,2-Dithiole-3-thiones	154
12. Chemoprevention of Colon Cancer by Thiol and Other Organosulfur Compounds	164
13. Inhibition of Esophageal Tumorigenesis by Phenethyl Isothiocyanate	173
14. High-Performance Liquid Chromatographic Determination of Glucosinolates in Brassica Vegetables	181

## LIMONOIDS AND PHTHALIDES

15. Biochemistry of Citrus Limonoids and Their Anticarcinogenic Activity	198
16. Inhibition of Chemically Induced Carcinogenesis by Citrus Limonoids	209
17. Inhibition of Oral Carcinogenesis by Green Coffee Beans and Limonoid Glucosides	220
18. Stimulation of Glutathione S-Transferase and Inhibition of Carcinogenesis in Mice by Celery Seed Oil Constituents	230

## PHYTOCHEMICALS FROM FRUITS AND VEGETABLES

19. Citrus Juice Flavonoids with Anticarcinogenic and Antitumor Properties	240
20. Determination of Free and Glycosidically Bound Organic Compounds in an Umbelliferous Vegetable Drink	249
21. Effects of Consumption of an Umbelliferous Vegetable Beverage on Constituents in Human Sera	258

22. Chlorophyllin: An Antigenotoxic Agent	272
23. Dietary Cytochrome P-450 Modifiers in the Control of Estrogen Metabolism	282
24. Comparative Study of Ellagic Acid and Its Analogues as Chemopreventive Agents against Lung Tumorigenesis	294
25. Antitumor-Promoting Effects of Gallotannins, Ellagitannins, and Flavonoids in Mouse Skin In Vivo	303

#### PHYTOCHEMICALS IN SOYBEANS

26. Soybean Saponin and Isoflavonoids: Structure and Antiviral Activity against Human Immunodeficiency Virus In Vitro	330
27. Structural Elucidation and Physiological Properties of Genuine Soybean Saponins	340
28. Fermentation-Derived Anticarcinogenic Flavor Compound	349
29. Antioxidative Activity of Fermented Soybean Products	353
30. Chemopreventive Phytochemicals in Soy and Licorice Diets Affecting Key Rat Enzyme Systems	361
31. Genetic Improvement of Saponin Components in Soybean	372

#### MICRONUTRIENTS

32. The Second Golden Age of Nutrition: Phytochemicals and Disease Prevention	382
33. Synthesis of L-Ascorbic Acid and Its 2-Phosphate and 2-Sulfate Esters and Its Role in the Browning of Orange Juice Concentrate	388
34. Metabolic Pathway for $\beta$ -Carotene Biosynthesis: Similarities in the Plant and Animal	401
