# Table of Contents

Section I	
Introduction .....	1
Chapter 1 Epidemiology of Cancer: an Overview .....	3
<i>Henry Rodriguez and Doug Case</i>	
Section II	
Pathophysiology of Cancer.....	15
Chapter 2 Role of DNA Methylation in Cancer and Chemotherapy.....	17
<i>Y-Yong Qiu, Bernard L. Mirkin, and Rama S. Dwivedi</i>	
Chapter 3 Metals, Metalloids, and Cancer .....	29
<i>Gabriel Keith Harris and Xianglin Shi</i>	
Chapter 4 Molecular Mechanisms of Asbestos- and Silica-Induced Lung Cancer.....	41
<i>Fei Chen and Val Vallyathan</i>	
Chapter 5 Involvement of Receptor Tyrosine Kinases in Lung Cancer: Clinical Importance .....	63
<i>Nilanjana Maulik and Gautam Maulik</i>	
Chapter 6 Free Radicals, Environmental Radiation, and Cancer.....	79
<i>Okezie I. Aruoma</i>	
Chapter 7 Smokeless Tobacco, Oxidative Stress, and Oral Cancer .....	89
<i>Manashi Bagchi, Sidney J. Stohs, and Debasis Bagchi</i>	
Chapter 8 The Regulatory Roles of Estrogen in Carcinogenesis: an Overview.....	105
<i>Sushanta K. Banerjee, Aminul Islam, and Snigdha Banerjee</i>	
Chapter 9 Nonsteroidal Anti-Inflammatory Drugs (NSAID) and Colorectal Cancer .....	123
<i>Henry T. Lynch, Trudy G. Shaw, Jane F. Lynch, and Hemant K. Roy</i>	

<b>Chapter 10</b> Current Perspectives in Gastric Adenocarcinoma .....	143
<i>Clinton Snedegar and Bhaskar Banerjee</i>	
<b>Chapter 11</b> Adenocarcinoma of the Esophagus.....	151
<i>Sandeep K. Tripathy and Bhaskar Banerjee</i>	
<b>Chapter 12</b> <i>Helicobacter pylori</i> and Gastric Cancer .....	163
<i>Shinya Toyokuni</i>	
<b>Chapter 13</b> Free Radicals, Oxidative Stress, and Cancer .....	171
<i>Shampa Chatterjee and Aron B. Fisher</i>	
<b>Chapter 14</b> Biotransformation and Mechanism of Action of Xenobiotics: What Lessons from the Past 40 Years? .....	187
<i>Giovanni Pagano and Marco d'Ischia</i>	
<b>Chapter 15</b> Obesity and Cancer .....	197
<i>Harry G. Preuss, Manashi Bagchi, Debasis Bagchi, and G.R. Kaats</i>	
<b>Chapter 16</b> Hemangioendothelioma as a Model to Study the Antiangiogenic Effects of Dietary Chemopreventive Agents <i>In Vivo</i> .....	205
<i>Gayle M. Gordillo and Chandan K. Sen</i>	
<b>Chapter 17</b> Modulation of Late Adverse Effects of Curative Radiation Therapy for Cancer.....	215
<i>John Yarnold and Lone Gothard</i>	
<b>Section III</b>	
<b>Phytopharmaceuticalsand Chemoprevention.....</b>	<b>227</b>
<b>Chapter 18</b> Development of Selected Phytochemicals for Cancer Chemoprevention .....	229
<i>Vernon E. Steele</i>	
<b>Chapter 19</b> Phytochemicals as Potential Cancer Chemopreventive Agents .....	237
<i>Rajendra G. Mehta and John M. Pezzuto</i>	

Chapter 20 History of Natural Supplements in Cancer Therapy and Prevention.....	247
<i>Gottumnukkala V. Subbaraju and Golakoti Trirnurtulu</i>	
Chapter 21 Vitamin C, Vitamin E, and $\beta$ -Carotene in Cancer Chemoprevention.....	2. 1
<i>Jane Higdon and Balz Frei</i>	
Chapter 22 Roles of Polyphenols, Flavonoids, and Oligomeric Proanthocyanidins in Cancer Chemoprevention.....	311
<i>Sidhartha D. Ray and Debasis Bagchi</i>	
Chapter 23 Curcumin Derived from Turmeric ( <i>Curcuma longa</i> ): a Spice for All Seasons.....	349
<i>Bharat B. Aggarwal, Anushree Kumar, Manoj S. Aggarwal, and Shishir Shishodia</i>	
Chapter 24 Tea in Chemoprevention of Cancer .....	389
<i>Vaqar Mustafa Adharni, Moamrnir Hasan Aziz, Nihal Ahrnad, and Hasan Mukhtar</i>	
Chapter 25 Phytoestrogens in Cancer Prevention: Characterization and Beneficial Effects of Kurarinone, a New Flavanone and a Major Phytoestrogen Constituent of <i>Sophora flavescens</i> Ait.....	427
<i>A. De Naeyer, W. Vanden Berghe, D. De Keukeleire, and G. Haegeman</i>	
Chapter 26 Resveratrol in the Chemoprevention and Chemotherapy of Breast Cancer.....	449
<i>Wisit Tangkeangsirisin and Ginette Serrero</i>	
Chapter 27 Berries and Fruits in Cancer Chemoprevention.....	465
<i>Ronald L. Prior and Jim Joseph</i>	
Chapter 28 Palm Tocotrienols and Cancer .....	481
<i>Kalanithi Nesaretnarn</i>	
Chapter 29 Pycnogenol in Cancer Chemoprevention.....	491
<i>Fabio Virgili, R. Ambra, R. Canali, and O. Gulati</i>	

Chapter 30 Overview of the Use of Maitake Mushroom and Fraction D in Cancer .....	509
<i>Harry Preuss, Sensuke Konno, and Debasis Bagchi</i>	
Chapter 31 Taxol in Cancer Treatment and Chemoprevention .....	519
<i>Sidney J. Stohs</i>	
Chapter 32 Lycopene and Cancer .....	525
<i>Theresa Visarius, René Gysin, and Angelo Azzi</i>	
Chapter 33 NADH in Cancer Prevention and Therapy .....	541
<i>George D. Birkmayer and Jiren Zhang</i>	
Chapter 34 Astaxanthin and Cancer Chemoprevention.....	555
<i>John E. Dore</i>	
Chapter 35 Chemopreventive Effects of Selected Spice Ingredients .....	575
<i>Young-Joon Surh, Hye-Kyung Na, and Hyong Joo Lee</i>	
Chapter 36 Coenzyme Q <sub>10</sub> and Neoplasia: Overview of Experimental and Clinical Evidence .....	599
<i>Emile G. Bliznakov, Raj K. Chopra, and Hemmi N. Bhagavan</i>	
Chapter 37 Probiotics in the Prevention of Cancer .....	623
<i>Karen Madsen and John Walker</i>	
Section IV	
Concluding Remarks.....	637
Commentary 1 Do Dietary Antioxidants Really Help Prevent or Treat Cancer?.....	639
<i>Jeffrey Blumberg</i>	
Commentary 2 Who Gets Cancer? Do Healthy Foods, Healthy Living, and Natural Antioxidants Really Help?.....	643
<i>Jean Carper</i>	
Concluding Remarks.....	645
Index .....	647
