

CONTENTS

Preface	xv
Series Foreword	xix
1 Introduction	1
2 Stress, Strength and Failure of Materials	19
3 Electrical and Electronics Stress, Strength and Failure	35
4 Variation and Reliability	51
5 Design Analysis	73
6 Development Testing Principles	97
7 Materials and Systems Testing	115
8 Testing Electronics	133
9 Software	149
10 Manufacturing Test	167
11 Testing in Service	189
12 Data Collection and Analysis	199
13 Laws, Regulations and Standards	217
14 Management	231
Appendices	247
Index	263
