*Preface* xi

*Acknowledgments* xiii

<b>General Introduction</b> .....	<b>1</b>
<b>Chapter 1. Temperature-measuring Instruments</b> .....	<b>3</b>
Fundamental Working Parts That Comprise All Pressure-actuated Thermometers	4
Modern Self-balancing Potentiometer Recorders	5
Transmitting Temperature Instruments	6
<b>Chapter 2. Pressure-measuring Instruments</b> .....	<b>20</b>
Pressure Measurement by Balancing an Unknown Pressure against a Known Force	20
Liquid-column Pressure Gauge	21
Deadweight Piston Gauge	21
Pressure Measurement by Deformation of an Elastic Membrane	21
Bodon-tube Pressure Gauge	23
Metallic-bellows Pressure Gauge	27

<b>chapter 3. Differential-pressure-flowmeter Primary Measuring Elements . . .</b>	<b>28</b>
Inferential Type of Flowmeter	29
Venturi Tube	29
Flow Nozzle	30
Orifice Plate	31
Comparison of Differential-pressure-meter Primary Elements	42
Pitot Tube	44
<b>Chapter 4. Differential-pressure-flowmeter Secondary Measuring and Recording Elements . . . . .</b>	<b>46</b>
Recording Flowmeter	46
Transmitting Electrical Instruments	48
Transmitting Pneumatic Instruments	59
<b>Chapter 5. Area-type Flowmeters . . . . .</b>	<b>71</b>
Rotameter	71
Piston-type Area Meter	73
Variable-area-type Element	75
<b>Chapter 6. Volumetric Flowmeter . . . . .</b>	<b>80</b>
Piston Type	80
Rotating-disk Type	82
Volume-measuring Elements	83
Advantages and Disadvantages of the Volumetric Flowmeter	92
<b>Chapter 7. Automatic Control Theory . . . . .</b>	<b>93</b>
Definition of Heat-exchanger Lags	93
Types of Controller Mechanisms for Coping with Process and Response Lags	94
<b>Chapter 8. Process Characteristics Using Different Control Mechanisms. .</b>	<b>101</b>
Control Mechanisms	101
General Discussion of the Problem of Control	108
Mathematical Analysis of Process Characteristics	110
<b>Chapter 9. Automatic-control-valve Characteristics . . . . .</b>	<b>122</b>
Throttling Valve Characteristics	123
Flow Control	130
Flow-ratio Control	133
<b>Chapter 10. Liquid-level and Interface Measurement and Control . . . . .</b>	<b>137</b>
Float-displacement-type Element	137
Electrical-contact-type Indicators	144

Pressure-differential-type Instrument 147  
 Capacitance-probe-type Element 152  
 Liquid Interface 156

**Chapter 11. Automatic Control Mechanisms ..... 159**

Self-operated Control Mechanisms 160  
     Temperature Controls 160  
     Pressure Regulators 162  
 Servo-operated Control Mechanisms 105  
     Pneumatic Controller Mechanisms 165

**Chapter 12. Electrical and Electronic Controllers ..... 225**

Description of Electrical Control Instruments 225  
 Description of Electronic Control Instruments 240

**Chapter 13. Specific-gravity-measuring Elements ..... 265**

Liquid Specific Gravity 265  
     **Tubular-float-displacement** Type of Element 265  
     Gamma-ray-type Elements 273  
 Gas Specific Gravity 287  
     Float-type Elements 287
