

CONTENTS

<i>Preface</i>	vii
<i>Acknowledgements</i>	ix
<i>References</i>	xi
<i>Chapter</i>	
1 Introduction and General Definitions	1
2 The Corrosion Reaction	11
3 Forms of Corrosion	32
4 The Problem of Corrosion in the Presence of Stress	47
5 Oxidation of Metals at Elevated Temperatures (Dry Corrosion)	62
6 Ferrous Metals and Alloys	73
7 Aluminium and its Alloys	87
8 Copper and Copper-base Alloys	116
9 Miscellaneous Metals, Solders , Graphite and Woods	138
10 Metallic Coatings	149
11 Corrosion Control	164
12 Cathodic Protection	189
13 The Effect of Biological Activity on Corrosion	206
14 Salt-water Systems	215
15 Propulsion Components	231
16 Corrosion in Steam	241
17 Paints	246
18 Plastics	262
<i>Appendices</i>	
1 Sea Water	272
2 Hydrogen Ion Concentration	282
3 Earthing of Welding Machines	284
<i>Glossary of Corrosion Terms</i>	291
<i>Index</i>	299
