

CONTENTS

PREFACE	vii
1. Introduction	1
2. The Design Process	5
3. Engineering Materials and Their Properties	14
4. Materials Selection Charts	24
5. Materials Selection Without Shape	56
6. Case Studies: Materials Selection Without Shape	70
7. Selection of Material and Shape	132
8. Case Studies: Selection of Material and Shape	152
9. Materials Processing and Design	167
10. Case Studies: Selection of Process	195
11. Sources of Material Property Data	208
12. Case Studies: Use of Material Data Sources	219
13. Materials, Aesthetics and Industrial Design	232
14. Forces for Change	239
APPENDIX A Useful Approximate Solutions to Standard Problems	251
APPENDIX B Problems	283
SUBJECT INDEX	305
APPENDIX C* Materials and Process Selection Charts	

**Printed as a separate booklet.*
