

CONTENTS

Preface XI

1/The Metallic State 1

- The Crystalline Nature of Metals 1
- Mechanical Behavior of Metals 10
- Testing and Evaluation of Metals 14
- Problems 24
- References 24

2/Ferrous and Nonferrous Metals 26

- General 26
- Ferrous Metals 28
- Manufacture of Steel 29
- Structure of Iron and Steel 45
- Heat Treatments 52
- Physical Properties of Steels 56
- Alloy Steels 62
- Nonferrous Metals 64
- Problems 65
- References 65

3/Mineral Aggregates 67

- Aggregate Types and Processing 67
- Aggregate as a Base-Course Material 72
- Aggregates for Portland Cement Concrete 74

Aggregates for Bituminous Mixtures	80
Aggregate Beneficiation	82
ASTM Test Specifications for Aggregates	83
Problems	W
References	W

4/Cements 101

Lime	101
Hydraulic Limes	102
Pozzolan Cements	103
Slag Cements	104
Natural Cements	105
Portland Cements	106
Portland-Pozzolan Cements	120
Portland Blast-Furnace-Slag Cement	121
Alumina Cements	122
Expansive Cements	122
Special Portland Cements	122
Problems	123
References	124

5/General Strength of Concrete 125

Compressive Strength	125
Tensile and Flexural Strength	132
Shearing and Torsional Strength	137
Combined Stresses	137
Fatigue Strength	138
Problems	139
References	140

6/Design Procedure in Making Concrete 144

Concrete Materials	144
Principal Requirements for Concrete	146
Influences of Ingredients on Properties of Concrete	147
Proportioning Concrete Mixes	152
Proportioning Materials	163
Mixing and Depositing	163
Compressive, Tensile, and Flexural Strength	166
Problems	166
References	167

7/Performance Characteristics of Concrete 169

- Failure Mechanism of Concrete 169
- Factors that Cause Deterioration 172
- Admixtures 189
- Problems 192
- References 192

8/Timber 194

- Classes of Trees 194
- Wood Structure 195
- Physical Characteristics of Wood 196
- Mechanical Properties of Timber 202
- Decay, Durability, and Preservation of Timber 206
- Problems 219
- References 220

9/Asphalt Cements 222

- Asphalt Cements 222
- Methods of Testing 226
- Modifications of Asphalt Cement 233
- Road Tars 237
- Proportioning Asphaltic Mixes 238
- Problems 247
- References 248

10/Plastics 249

- Classification 249
- Types of Plastics 250
- Manufacture of Organic Plastics 262
- Properties of Organic Plastics 264
- Problems 264
- References 264

Appendices 265

- Steel 267
- Aggregates and Concrete 339
- Wood 365
- Asphalt 449

Index 459
