

CONTENTS

	Page
Introduction	1
Corrosion of Reinforcing Steel in Concrete—A General Overview of the Problem	3
Effect of Cement Composition on Corrosion of Reinforcing Steel in Concrete	12
Influence of Chloride in Reinforced Concrete	20
Marine Corrosion Behavior of Bare and Metallic-Coated Steel Reinforcing Rods I Concrete	30
Recent Research on Galvanized Steel for Reinforcement of Concrete	51
Concrete Bridge Deck Deterioration in Pennsylvania	61
Vermont’s Experience with Bridge Deck Protective Systems	69
Epoxy Coatings for Corrosion Protection of Reinforcement Steel	82
A Corrosion Inhibitor Formulated with Calcium Nitrite for Use in Reinforced Concrete	89
The Use of Concrete Polymer Materials for Bridge Deck Applications	100
Polymer-Modified Concretes in Bridge Deck Overlay Systems	110
Iowa Method for Partial-Depth Portland Cement Resurfacing of Bridge Decks	116
Cathodic Protection for Reinforcing Steel in Concrete	124
Cathodic Protection: A User’s Perspective	150
Development of a Cold-Poured Bridge Deck Membrane System	164
Summary	178
Index	181
