

**CONTENTS**

1. Properties of Refractories	1
2. Fracture of Refractories	11
3. Corrosion of Refractories	39
4. Alumina-Silica Brick	79
5. Magnesite Refractories	109
6. Silica Brick Material Properties	151
7. Dolomite Refractories	183
8. Carbonaceous Refractories	201
9. Spinel-Containing Refractories	215
10. Refractory Castables	259
11. Unshaped Refractory Products	287
12. Surface Chemistry as a Tool for the Development of Advanced Refractory Castables	335
13. Thermomechanical Considerations for Refractory Linings	369
14. Refractory Applications in Refineries and Circulating Fluid Bed Reactors	395
15. Byproduct Coke Oven Battery Heating Wall Refractories-Damage and Causes of Failure	415
16. Testing of Refractory Materials	435
17. Refractory Lining Design and Installation	475
Index	491
