

CONTENTS

	Page
Chemical Inhibitors for Corrosion Control	1
The Design of Corrosion Inhibitors to Meet Specific Requirements for Oilfield	21
Corrosion Inhibitor Testing: Principles and Practices	46
Factors Influencing the Formulation of Treatments for Use in Heating and Cooling Systems	57
Mechanisms of Corrosion Inhibition in Neutral Environments	72
The Current Trends in Cooling Water Corrosion Inhibitors	89
Waterside Corrosion in Steam Raising Boiler Plant	103
Corrosion Control by Surface Coatings; The Use of Chemical Inhibitors	121
Inhibitors for Use in Lubrication Service	134
