

CONTENTS

	Page
Introduction	1
The Role of Thin surface Films in the Deformation of Metal Monocrystals	3
Discussion	11
Structure of Oxides Formed on High-Temperature Alloys at 1500 F	14
Discussion	32
Effect of Strain on the Oxidation of Nickel-Chromium Heater Alloys	35
Discussion	47
An Investigation of Intergranular Oxidation in Type 310 Stainless Steel	49
Discussion	60
The Properties of Oxidation-Resistant Scales Formed on Molybdenum-Base Alloys at Elevated Temperatures	65
Discussion	87
Oxidation at Elevated Temperatures	89
Discussion	113
