

## CONTENTS

	Page
<b>Intermetallic Compounds—Principles</b>	
List of Contributors	xi
Preface	xvii
List of Acronyms	xix
Crystal Structure Nomenclature	xxv
<b>I. INTRODUCTION</b>	<b>1</b>
1. Historical Sketch	3
<b>II. BONDING AND STABILITY</b>	<b>19</b>
2. Electronic Theories of Alloy Phase Stability	21
3. Ab Initio Calculations	55
4. The Embedded-Atom Method	77
5. Bond Characterization from Thermodynamic Properties	91
6. Band Structures and Their Interpretation	127
7. Phonon Dispersion Curves and Their Interpretation	149
8. Bond Characterization from Crystal Morphology	167
9. First-Principle Calculation of Elastic Properties	195
10. Heavy Fermion Compounds	211
<b>III. CRYSTAL STRUCTURES</b>	<b>225</b>
11. Factors Governing Crystal Structures	227
12. Close-Packed Structures	277
13. Body-Centered Cubic Derivative Structures	309
14. Wurtzite and Zinc Blende Structure	343
15. Atomic Environments in Some Related Intermetallic Structure Types	363
16. Some Important Structures of Fixed Stoichiometry	385
17. Topologically Close-Packed Structures	403
18. Structure Mapping	419
19. Magnetic Structures	439
20. Quasicrystals and Related Structures	453
<b>IV. DEFECT STRUCTURES</b>	<b>493</b>
21. Structure of Antiphase Boundaries and Domains	495
22. Dislocations	519
23. Point Defects	559
24. Structure of Grain Boundaries	585
25. Free Surfaces	609
<b>V. FORMATION AND CONSTITUTION</b>	<b>623</b>
26. Naturally Occurring Intermetallic Compounds	625
27. Synthesis and Processing Techniques	637
28. Liquid and Vapor Species	661
29. Metastable Phased	687
30. Quasibinary and Quasiternary Intermetallic Compound Systems	711
31. Amorphous Phases	731
<b>VI. KINETICS AND PHASE TRANSFORMATIONS</b>	<b>755</b>
32. Diffusion	757
33. Ordering and Disorder Processes	771
34. Irradiation Damage	791
35. Crystallographic Transformations	827

36. Microstructural Stability	849
<b>VII. PROPERTY FUNDAMENTALS</b>	<b>871</b>
37. Elastic Properties	873
38. Intergranular and Cleavage Fracture	895
39. Plastic Deformation	911
40. Magnetic Principles	935
41. Electrical and Electronic Behavior	941
42. Corrosion of Intermetallic Compounds	965
43. Oxidation Behavior of High-Temperature Intermetallics	977
44. Thermal Behavior	1017
<b>INDEXES</b>	
Author Index	1031
Subject Index	1081
Compound Index	1115
