

CONTENTS

FOREWORD	v
INTRODUCTION	ix
Chapter	
I. GENERAL	
Physical and mechanical properties of aluminium and its alloys	2
Chemical resistance of aluminium	4
Tests to determine chemical resistance	14
Means for reducing the attack of aluminium by chemicals	15
The principal inhibitors used in the chemical industries	21
II. THE EFFECT OF ALUMINIUM ON WATERS—GASES—ATMOSPHERES	
Waters	27
Air—Atmospheres	33
III. ALUMINIUM AND CHEMICALS: NON-METALS	
Hydrogen and the rare gases	35
Halogens	35
Oxygen, sulphur, selenium, tellurium	38
Nitrogen, phosphorus, arsenic, antimony	43
Carbon, silicon, boron	50
IV. ALUMINIUM AND CHEMICALS: METALS, OXIDES AND SALTS	
Group Ia. Lithium, sodium, potassium (ammonium)	
Group IIa. Beryllium, magnesium, calcium, strontium, barium	71
Metals of groups IIIb. Aluminium IVa. Titanium, zirconium, thorium	77
Group Ib. Copper, silver, gold	78
Group IIb. Zinc, cadmium, mercury	79
Group IVb. Tin, lead	81
Group VIa. Chromium, molybdenum, tungsten, uranium	82
Group VIIa. Manganese	83
Group VIII. Iron, cobalt, nickel, platinum and other rare metals of group viii	83
V. ALUMINIUM AND CHEMICALS: ORGANIC COMPOUNDS	
Hydrocarbons	101
Halogen derivatives of the hydrocarbons	105
Alcohols	111
Phenols	115

Chapter	Page
Aldehydes, ketones, quinones	118
Carbohydrates	123
Acids	124
Acid chlorides, chlorine substituted alcohols, phenols and aldehydes, sulphur derivatives of alcohols and phenols	132
Ethers, esters, lactones	134
Nitro, derivatives and nitriles	141
Amines, imines, amides and their derivatives	142
Proteins, albuminoids	147
Heterocyclic compounds	148
VI. THE ACTION OF VARIOUS FOOD PRODUCTS ON ALUMINIUM	
Beverages	201
Sugars, honey, preserves	203
Flour, bread, biscuits	203
Dairy industries	204
Table oils and edible fats	206
Meats and meat products	206
Fish and shellfish	207
Fruit and vegetables	208
Miscellaneous products	210
VII. INDUSTRIAL APPLICATIONS	
Sea salt, rock salt, potassium salts	213
Crude petroleum, natural gas, refinery products	214
Coal, coal distillation products, coal gas derivatives	221
Wood tars	224
Waxes, lacquers, balsams, resins	225
Rubber (natural rubber, latex, synthetic rubber, derivatives)	227
Building materials	228
Cellulosic materials and their derivatives, albuminoids and collagens	231
Natural and synthetic textiles, bleaching, dyeing	234
Tanning, tawing, dyeing of skins	235
Plastics	236
Varnishes, paints, inks	237
Perfumery, pharmaceuticals	239
Antifreezes, refrigerants	240
Photographic materials,	241
Insecticides, weed killers, fungicides, products for pest prevention and control	241
Manure gases, liquid manure, urine, sewage	243
Cleaning products, detergents, disinfectants	243

BIBLIOGRAPHY

INDEX
