

CONTENTS

Part I: INTRODUCTION

An Introduction to Performance Polymers	11
---	----

Part II: STRUCTURE/PROPERTIES

Structural Hierarchy in Semicrystalline Synthetic Polymers	33
Structure-Property Relationships in Liquid Crystalline Polymers	55
Distortional Plasticity of Organic Glassy Polymers	79
Ultrasonic Analysis of Mechanical Deformation Process	103

Part III: COMPOSITES

Carbon-Carbon Composites	135
Microlayer Composites	175
Mechanical Properties of Polymeric Composite Materials	199

Part IV: FIBERS

High Performance Organic Fibers for Polymeric Composites	255
Microfiber Systems: A Review	279

Index	329
