

CONTENTS

1. The Rubber Elastic State	1
University of Cincinnati, Department of Chemistry and the Polymer Research Center, Cincinnati, OH 45221	
2. The Glassy State and the Glass Transition	55
McGill University, Department of Chemistry, Montreal, Quebec, Canada H3A 2K6	
3. Viscoelasticity and Flow in Polymer Melts and Concentrated Solutions	97
Exxon Research and Engineering Company, Corporate Research Science Laboratories, Annandale, NJ 08801	
4. The Crystalline State	155
Florida state University, Department of Chemistry and Institute of Biophysics, Tallahassee, FL 32306	
5. Molecular Spectroscopy	207
Case Western Reserve University Department of Macromolecular Science, Cleveland OH 44106	
Index	239
