

## CONTENTS

	Page
<b>Preface</b>	<b>vii</b>
<b>Chapter 1 Introduction</b>	<b>1</b>
Historical Aspects	1
Present Status	3
Advantages of Adhesive Bonding	7
Limitations of Adhesive Bonding	8
Cost Factors	9
The Technical Problems Encountered in Adhesive Bonding	10
<b>Chapter 2 Mechanics of Adhesive Joints</b>	<b>14</b>
Joint Geometry	15
Differential Expansion Stresses	28
Stresses Due to Fluid Pressure	30
Relief of Stresses by Reduction of Section	34
Effect of Small Inelastic Strains on the Load-carrying Capacity	36
Residual Stresses	39
Superposition of Stresses	39
Combined Stresses	39
Stress Rupture and Creep	40
<b>Chapter 3 The Statistical Point of View</b>	<b>43</b>
Safety and Reliability	44
Frequency Distributions	45
Statistics	48
Statistics of Fracture	53
<b>Chapter 4 Laminating Resins and Adhesives</b>	<b>57</b>
Resin Types	57
Adhesive Formulations	63
<b>Chapter 5 The Rheology of Adhesives</b>	<b>70</b>
Nonlinear Flow	70
Spreading Characteristics	74
Rheological Measurements	79
Standard Test Methods	82
<b>Chapter 6 General Properties of Adhesives</b>	<b>87</b>
Analysis of Adhesives	87
Curing Properties	88
Electrical Properties of Adhesives	89
Corrosivity of Adhesives	90
Corrosivity Test Methods	93
Proposed Test for Water-soluble Corrosive Constituents in Molded Plastics and Adhesives	100
Reactivity of Adhesives with Sensitive Materials	105
<b>Chapter 7 Mechanical Testing of Adhesives</b>	<b>108</b>
ASTM Test Methods	109
NOL Butt-joint Test Methods for Structural Adhesives	116
<b>Chapter 8 Adherend Materials</b>	<b>155</b>
Reinforced Plastics	155

Chemical Finishes	162
Testing Glass-fiber-reinforced Adherends	167
<b>Chapter 9 Adhesive Bonding Process Factors</b>	<b>170</b>
Forming and Molding of Adherends	170
Measuring and Mixing the Adhesive	173
Application	174
Drying	177
Curing	177
Pressing	177
Heating	178
Timing	179
Adhesive Thickness Control	181
Training	182
<b>Chapter 10 Adhesive Bonding Equipment</b>	<b>183</b>
Adhesive Handling Equipment	183
Grinding and Sanding Machinery	193
Assembly and Alignment Equipment	195
Clamps and Presses	196
Heating Equipment	202
Industrial Safety	205
<b>Chapter 11 Quality Control of Adhesive Bonds</b>	<b>209</b>
Visual Inspection of Adherends	209
Cleanliness of Adherends	221
Mechanical Smoothness of Adherends	221
Visual Inspection of Assembled Joints	222
X-ray Inspection	223
Acoustic Inspection	223
Proof Stressing of Adhesive Joints	224
Leak Testing	225
Testing Specimens Bonded Concurrently	225
Statistics in Inspection	226
<b>Chapter 12 Design of Adhesive Joints</b>	<b>233</b>
Selection of Joint Shape	233
Selection of Adhesive	238
Design Calculations	240
Safety Factors	248
<b>Index</b>	<b>269</b>
