Preface to Second Edition	... (iii)
Preface to First Edition	... (iv)
Conversion factors	... (v)
Equivalent weight	... (vii)
Atomic Weights	... (viii)

CHAPTER—I

FUELS AND COMBUSTION

1'1. Proximate analysis of coal	... 2
1'2. Ultimate analysis of coal	... 7
1'3. To determine the amount of sulphur in coal (By Eschka mixture method)	... 27
1'4. To determine the calorific values of solid and liquid fuels (By Oxygen-Bomb calorimeter)	... 30
1'5. To determine the calorific value of a gaseous fuel (By Hugo Junker's gas calorimeter)	... 52
1'6. To analyse a flue gas (By simple orsat apparatus)	... 65

CHAPTER—II

INDUSTRIAL WATER

2'1. To determine the amount of NaOH and Na_2CO_3 in a given alkaline solution	... 82
2'2. To determine the amount of Na_2CO_3 and NaHCO_3 in a given alkaline solution	... 85
2'3. To determine the alklinity of water	... 87
2'4. To determine the temporary hardness of boiler feed water	... 94
2'5. To determine the permanent hardness of boiler feed water	... 96

2'6. To determine the carbonate and non-carbonate hardness of boiler feed water (By soda-reagent method)	...	98
2'7. To determine the temporary and permanent hardness of boiler feed water (By standard soap solution method)	...	122
2'8. To determine the temporary and permanent hardness of boiler feed water (By E.D.T.A. method)	...	126
2'9. To determine the magnesium hardness of boiler feed water	...	128
2'10. To determine the amount of dissolved oxygen in boiler feed water	...	132
2'11. To determine the amount of total chloride in boiler feed water.	...	134
2'12. To determine the amount of free chlorine in municipal water	...	137
2'13. To determine the amount of total sulphate in boiler feed water (By Benzidine hydrochloride method)	...	140
2'14. To determine the amount of total solids in boiler feed water	...	143

CHAPTER—III

OILS AND LUBRICANTS

3'1. To find out the acid value of a vegetable oil	...	145
3'2. To find out the saponification value of an oil	...	149
3'3. To find out the iodine value of an oil	...	152
3'4. To determine the flash point of a high fuel oil (By Abel's apparatus)	...	157
3'5. To determine the flash point of a lubricating oil (By Pensky-Martain's apparatus)	...	159
3'6. To determine the viscosity of an oil (By Redwood Viscosimeter)	...	161
3'7. To determine the Reid vapour pressure of petrol	...	166

CHAPTER—IV

METALS AND ALLOYS

4.1	To estimate the amount of iron in haematite ore	...	170
4.2.	To estimate the amount of iron in steel	...	174
4.3.	To estimate the amount of copper in brass	...	177
4.4.	To estimate the amount of silver in an alloy of coper and silver	...	180
4.5.	To estimate the amount of available oxygen and manganese dioxide in pyrolusite ore	...	183
4.6.	To estimate the amount of calcium carbonate in lime stone	...	186
4.7.	Corrosion of metals and alloys	...	189
	Laboratory Reagents	...	192

CHAPTER—V

PORTLAND CEMENT

5.1.	Analysis of portland cement	...	197
	Logarithms	...	209
	Antilogarithms	...	211
