

**CONTENTS**

1. Introduction	1
2. Noise and Effects on Man	5
3. Noise Legislation	17
4. Acoustics and the Sound Field	41
5. Engineering Controls and Systems Design	55
6. Personal Safety Devices	69
7. Enclosures, Shields Barriers-Designing with Lead	83
8. Noise Reduction with Glass	143
9. Additional Sound Control Materials	175
10. Silencers and Suppressor Systems	203
11. Fundamentals of Vibration	219
12. Vibration Control Applications	241
13. Abatement and Measurement of Control Valve Noise	273
14. Hydrodynamic Control of Valve Noise	283
15. Ventilating System Noise Control	293
16. Instrumentation for Noise Analysis	305
17. Audiometric Testing and Dosimeters	325
18. Noise Level Interpolation and Mapping	337
19. Glossary	351
Index	359
