

CONTENTS AND SUBJECT INDEX

| | |
|---|-----|
| INTRODUCTION | 1 |
| METALS INDUSTRY | 11 |
| Process Technology Involved. | 13 |
| Major Energy Conservation Options to 1980. | 14 |
| Goal Year (1980) Energy Use Target. | 17 |
| STEEL INDUSTRY | 20 |
| Process Technology Involved. | 20 |
| Major Energy Conservation Options to 1980. | 40 |
| Goal Year (1980) Energy Use Target. | 60 |
| Some Projections Beyond 1980 to 1990. | 67 |
| ALUMINUM INDUSTRY | 72 |
| Process Technology Involved. | 72 |
| Major Energy Conservation Options to 1980. | 80 |
| Goal Year (1980) Energy Use Target. | 95 |
| Some Projections Beyond 1980 to 1990. | 99 |
| IRON FOUNDRY INDUSTRY | 102 |
| Process Technology Involved. | 102 |
| Major Energy Conservation Options to 1980. | 105 |
| Goal Year (1980) Energy Use Target. | 113 |
| COPPER INDUSTRY | 115 |
| Process Technology Involved. | 115 |
| Major Energy Conservation Options to 1980. | 117 |
| Goal Year (1980) Energy Use Target. | 129 |
| FERROALLOY INDUSTRY | 134 |
| Process Technology Involved. | 134 |
| Major Energy Conservation Options to 1980. | 135 |
| Goal Year (1980) Energy Use Target. | 138 |

| | |
|--|-----|
| NONFERROUS FOUNDRY INDUSTRY | 140 |
| Process Technology Involved. | 140 |
| Major Energy Conservation Options to 1980. | 142 |
| Goal Year (1980) Energy Use Target. | 143 |
| STEEL FOUNDRY INDUSTRY | 145 |
| Process Technology Involved. | 145 |
| Major Energy Conservation Options to 1980. | 147 |
| Goal Year (1980) Energy Use Target. | 149 |
| OTHER PRIMARY NONFERROUS METALS INDUSTRY | 150 |
| Process Technology Involved. | 150 |
| Magnesium | 150 |
| Silicon | 150 |
| Silver | 150 |
| Titanium | 152 |
| Major Energy Conservation Options to 1980. | 152 |
| Magnesium | 152 |
| Silicon | 155 |
| Silver | 155 |
| Titanium | 156 |
| Combined Primary Nonferrous Metals. | 157 |
| Goal Year (1980) Energy Use Target. | 158 |
| NONFERROUS PROCESSING INDUSTRY | 159 |
| Process Technology Involved. | 159 |
| Major Energy Conservation Options to 1980. | 160 |
| Goal Year (1980) Energy Use Target. | 161 |
| MISCELLANEOUS METAL PRODUCTS INDUSTRY | 162 |
| Process Technology Involved. | 162 |
| Major Energy Conservation Options to 1980. | 163 |
| Goal Year (1980) Energy Use Target. | 164 |
| SECONDARY NONFERROUS SMELTING AND REFINING INDUSTRY | 165 |
| Process Technology Involved. | 165 |
| Major Energy Conservation Options to 1980. | 167 |
| Goal Year (1980) Energy Use Target. | 170 |
| PRIMARY ZINC INDUSTRY | 171 |
| Process Technology Involved. | 171 |
| Major Energy Conservation Options to 1980. | 176 |
| Goal Year (1980) Energy Use Target. | 176 |
| PRIMARY LEAD INDUSTRY | 177 |
| Process Technology Involved. | 177 |
| Major Energy Conservation Options to 1980. | 177 |
| Goal Year (1980) Energy Use Target. | 181 |
| CHEMICALS AND ALLIED PRODUCTS INDUSTRY | 184 |
| Process Technology Involved. | 186 |
| Major Energy Conservation Options to 1980. | 186 |
| Problem Areas in Energy Conservation | 194 |

| | |
|---|------------|
| Goal Year (1980) Energy Use Target. | 194 |
| Upper Limits on Reducing Specific Energy Consumption (SEC) by January 1, 1980. | 199 |
| Practical Limits on Reducing SEC by January 1, 1980 | 200 |
| ALKALIES AND CHLORINE INDUSTRY | 205 |
| Process Technology Involved. | 205 |
| Major Energy Conservation Options to 1980. | 215 |
| Goal Year (1980) Energy Use Target. | 222 |
| Some Projections Beyond 1980 to 1990. | 227 |
| INDUSTRIAL GASES INDUSTRY | 229 |
| Process Technology Involved. | 230 |
| Oxygen | 230 |
| Nitrogen | 231 |
| Argon | 231 |
| Hydrogen | 234 |
| Acetylene | 237 |
| Carbon Dioxide. | 237 |
| Major Energy Conservation Options to 1980. | 237 |
| Oxygen | 239 |
| Nitrogen | 241 |
| Argon | 241 |
| Hydrogen | 242 |
| Acetylene | 242 |
| Carbon Dioxide. | 243 |
| Goal Year (1980) Energy Use Target. | 243 |
| INORGANIC PIGMENTS INDUSTRY | 246 |
| Process Technology Involved. | 246 |
| Titanium Dioxide | 246 |
| Zinc Oxide | 248 |
| Other Inorganic Pigments | 250 |
| Major Energy Conservation Options to 1980. | 250 |
| Goal Year (1980) Energy Use Target. | 253 |
| OTHER INDUSTRIAL INORGANIC CHEMICALS | 256 |
| Process Technology Involved. | 257 |
| Sulfuric Acid. | 257 |
| Hydrofluoric Acid. | 258 |
| Aluminum Oxide. | 258 |
| Aluminum Sulfate. | 259 |
| Sodium Phosphates. | 259 |
| Calcium Phosphates. | 260 |
| Phosphorus (Elemental) | 260 |
| Sodium Silicates | 261 |
| Uranium Enrichment. | 262 |
| Major Energy Conservation Options to 1980. | 263 |
| Sulfuric Acid. | 264 |
| Phosphorus | 264 |
| Uranium Enrichment. | 265 |
| Other Products | 265 |
| Goal Year (1980) Energy Use Target. | 266 |
| Some Projections Beyond 1980 to 1990 | 268 |

| | |
|--|-----|
| PLASTIC MATERIALS INDUSTRY | 270 |
| Process Technology Involved..... | 271 |
| Low Density Polyethylene (LDPE) | 271 |
| High-Density Polyethylene (HDPE)..... | 273 |
| Polyvinyl Chloride (PVC) | 276 |
| Polystyrene | 278 |
| Major Energy Conservation Options to 1980..... | 279 |
| Goal Year (1980) Energy Use Target..... | 280 |
| Some Projections Beyond 1980 to 1990..... | 281 |
| SYNTHETIC RUBBER INDUSTRY | 284 |
| Process Technology Involved..... | 284 |
| Emulsion Process..... | 284 |
| Solution Process | 285 |
| Major Energy Conservation Options to 1980..... | 286 |
| Goal Year (1980) Energy Use Target..... | 289 |
| CELLULOSIC MANMADE FIBER INDUSTRY | 291 |
| Process Technology Involved..... | 291 |
| Acetate | 291 |
| Rayon..... | 292 |
| Major Energy Conservation Options to 1980..... | 293 |
| Goal Year (1980) Energy Use Target..... | 293 |
| SYNTHETIC NONCELLULOSIC FIBER INDUSTRY | 295 |
| Process Technology Involved..... | 295 |
| Polyester Fibers..... | 296 |
| Nylon Fiber..... | 297 |
| Acrylic Fibers | 298 |
| Major Energy Conservation Options to 1980..... | 299 |
| Goal Year (1980) Energy Use Target..... | 300 |
| Some Projections Beyond 1980 to 1990..... | 303 |
| DRUG INDUSTRY | 305 |
| Process Technology Involved—Biological Products—SIC 2831 | 306 |
| Blood Derivatives | 307 |
| Vaccines, Toxins and Antigens | 307 |
| Diagnostic Substances | 309 |
| Process Technology Involved—Medicinal Chemicals and Biological Products—SIC 2833..... | 309 |
| Process Technology Involved—Pharmaceutical Preparations—SIC 2834 | 318 |
| Major Energy Conservation Options to 1980..... | 322 |
| Efforts Toward Energy Reduction (1972-75)..... | 322 |
| Energy Savings (1972-1975)..... | 323 |
| Constraints on Future Savings..... | 326 |
| Goal Year (1980) Energy Use Target..... | 327 |
| SOAP, DETERGENT AND TOILETRY INDUSTRY | 330 |
| Process Technology Involved..... | 331 |
| Major Energy Conservation Options to 1980—SIC 2841 | 332 |
| Major Energy Conservation Options to 1980—SIC 2842-43-44 | 335 |
| Goal Year (1980) Energy Use Target..... | 335 |

| | |
|---|-----|
| PAINT INDUSTRY | 337 |
| Process Technology Involved..... | 337 |
| Major Energy Conservation Options to 1980..... | 339 |
| Goal Year (1980) Energy Use Target..... | 340 |
| GUM AND WOOD CHEMICALS INDUSTRY | 342 |
| Process Technology Involved..... | 342 |
| Major Energy Conservation Options to 1980..... | 342 |
| Goal Year (1980) Energy Use Target..... | 343 |
| COAL TAR CHEMICALS, DYES AND PIGMENTS INDUSTRY | 344 |
| Process Technology Involved..... | 345 |
| Benzene..... | 345 |
| Terephthalic Acid and Dimethyl Terephthalate..... | 347 |
| Ethylbenzene and Styrene..... | 350 |
| p-Xylene..... | 359 |
| Other Products..... | 360 |
| Major Energy Conservation Options to 1980..... | 366 |
| Goal Year (1980) Energy Use Target..... | 369 |
| ALIPHATIC ORGANIC CHEMICALS INDUSTRY | 371 |
| Process Technology Involved..... | 372 |
| Ethylene..... | 372 |
| Methanol..... | 377 |
| Ethylene Glycol..... | 378 |
| Other Products..... | 378 |
| Major Energy Conservation Options to 1980..... | 381 |
| Goal Year (1980) Energy Use Target..... | 385 |
| NITROGEN FERTILIZER INDUSTRY | 388 |
| Process Technology Involved..... | 388 |
| Ammonia..... | 388 |
| Nitric Acid..... | 397 |
| Urea..... | 399 |
| Major Energy Conservation Options to 1980..... | 402 |
| Goal Year (1980) Energy Use Target..... | 402 |
| Some Projections Beyond 1980 to 1990..... | 404 |
| PHOSPHATE FERTILIZER INDUSTRY | 406 |
| Process Technology Involved..... | 406 |
| Phosphoric Acid..... | 406 |
| Triple Superphosphate (TSP)..... | 407 |
| Ammonium Phosphates (MAP and DAP)..... | 410 |
| Major Energy Conservation Options to 1980..... | 411 |
| Goal Year (1980) Energy Use Target..... | 412 |
| Some Projections Beyond 1980 to 1990..... | 413 |
| FERTILIZER MIXING INDUSTRY | 415 |
| Process Technology Involved..... | 417 |
| Granulation..... | 417 |
| Liquid Mix..... | 419 |
| Bulk Blending..... | 420 |
| Major Energy Conservation Options to 1980..... | 422 |
| Goal Year (1980) Energy Use Target..... | 422 |

| | |
|---|-----|
| AGRICULTURAL CHEMICALS INDUSTRY | 424 |
| Process Technology Involved. | 424 |
| Insecticides | 424 |
| Fumigants | 427 |
| Fungicides | 428 |
| Herbicides | 429 |
| Rodenticides | 430 |
| Major Energy Conservation Options to 1980. | 430 |
| Goal Year (1980) Energy Use Target. | 431 |
| ADHESIVES AND SEALANTS INDUSTRY | 434 |
| Process Technology Involved. | 435 |
| Major Energy Conservation Options to 1980. | 435 |
| Goal Year (1980) Energy Use Target. | 435 |
| EXPLOSIVES INDUSTRY | 437 |
| Process Technology Involved. | 438 |
| Major Energy Conservation Options to 1980. | 439 |
| Goal Year (1980) Energy Use Target. | 439 |
| PRINTING INK INDUSTRY | 441 |
| Process Technology Involved. | 441 |
| Major Energy Conservation Options to 1980. | 443 |
| Goal Year (1980) Energy Use Target. | 444 |
| CARBON BLACK INDUSTRY | 445 |
| Process Technology Involved. | 445 |
| Major Energy Conservation Options to 1980. | 447 |
| Goal Year (1980) Energy Use Target. | 450 |
| FATTY ACIDS AND MISCELLANEOUS CHEMICALS INDUSTRY | 452 |
| Process Technology Involved. | 454 |
| Major Energy Conservation Options to 1980. | 454 |
| Goal Year (1980) Energy Use Target. | 455 |
| PETROLEUM AND COAL PRODUCTS INDUSTRY | 457 |
| Process Technology Involved. | 457 |
| Major Energy Conservation Options to 1980. | 480 |
| Fired Heater Improvements. | 489 |
| Improvements in Boiler Efficiency | 493 |
| Heat Exchanger Improvements | 494 |
| Air Cooler Improvements | 499 |
| Improvements of Pumps, Drivers and Piping | 501 |
| Improvements in Fractionating Towers | 502 |
| Tank Mixing | 504 |
| Insulation | 504 |
| Instrumentation | 505 |
| Vacuum System Improvements. | 506 |
| Steam System Improvements | 508 |
| Thermal Improvements in Catalytic Cracking Units | 510 |
| Electrical Load Leveling | 511 |
| Power Factor Improvement. | 512 |
| Process Energy Recovery from Process Streams | 512 |

| | |
|--|------------|
| Loss Control | 513 |
| Catalyst Developments | 513 |
| Process Developments | 514 |
| Goal Year (1980) Energy Use Target | 515 |
| Some Projections Beyond 1980 to 1990 | 519 |
