

CONTENTS

	Page
PART I	
1. Network Configurations	3
2. Network Impedance	8
3. Transmission Constants	14
4. Network Transformations and Reductions	27
5. Attenuators	40
6. Network Theorems	53
7. Miscellaneous Circuits	69
8. Transformers	93
9. Losses	115
10. Transmission Equalizers	132
11. Electric Wave Filters	155
PART II	
12. General Transmission Equations	197
13. Open -and Short- Circuited Lines	215
14. Lines with Terminal Impedances	225
15. Cable Circuits	239
16. Composite Lines	269
17. Line Impedance	282
18. Transmission Lines at Carrier Frequencies	301
19. Lossless Lines	331
Index	349
