

CONTENTS

Chapter 1. Introduction to Laser Safety	1
Chapter 2. Review of Optical Physics	13
Chapter 3. Review of Anatomy and Physiology of the EYE and Skin	65
Chapter 4. Effects of Optical Radiation of the EYE	101
Chapter 5. Optical Radiation Hazards to the Skin	161
Chapter 6. Optical Hazards From the Ambient Environment	187
Chapter 7. Laser Safety Standards	217
Chapter 8. Current Laser Exposure Limits	261
Chapter 9. Laser Hazard Classification	285
Chapter 10. Protection Standards for Non-Laser Sources	325
Chapter 11. Laser Output Measurements	347
Chapter 12. Laser Beam Diagnostics	385
Chapter 13. Atmospheric Propagation of Laser Beams	415
Chapter 14. Radiometric Measurements Required for Broadband Optical Sources	439
Chapter 15. General Hazard Analysis and Controls	471
Chapter 16. EYE and Skin Protection	521
Chapter 17. Laser Safety in Research Laboratories and Medical Facilities	563
Chapter 18. Safety With Lasers Used in Construction	591
Chapter 19. Safety with Lasers Used in Manufacturing	609
Chapter 20. Laser Safety With Consumer and Office Products	625
Chapter 21. Laser Hazards in Outdoor Applications	655
Chapter 22. Lamps and Lighting Systems	693
Chapter 23. Projection Systems	763
Chapter 24. Welding Arcs	801
Chapter 25. Safety Programs and Formal Training	861
Chapter 26. Medical Surveillance	879
Chapter 27. Ancillary Hazards	899
Chapter 28. Electrical Hazards	913
Appendix A. Terms and Units of Measure-The International System of units	929
Appendix B. The Human EYE	947
Appendix C. Laser Wavelengths and Characteristics	961
Appendix D. List of Capital Letter Abbreviations	967
Appendix E. Hazard Classification of some Representative Pre-1976 Lasers	973
Appendix F. Copy Machine Characteristics	983
Appendix G. Glossary of Terms Used in Welding and Biology	987
Appendix H. Sources of us Government Publications	997

Appendix I. Hammer Safety	999
Author Index	1003
Subject Index	1025
