

## CONTENTS

|                 |   | Page       |
|-----------------|---|------------|
| <b>PART I</b>   | <b>Circuits</b>                             |            |
|                 | 1. Introductions                            | 3          |
|                 | 2. Definitions and Laws                     | 9          |
|                 | 3. Signal Waveforms                         | 43         |
|                 | 4. Natural Response                         | 73         |
|                 | 5. Forced Response                          | 107        |
|                 | 6. Complete Response                        | 137        |
|                 | 7. Steady-State AC Circuits                 | 161        |
|                 | 8. General Network Analysis                 | 209        |
| <b>PART II</b>  | <b>Electronic Devices</b>                   |            |
|                 | 9. Principles of Electronics                | 247        |
|                 | 10. Linear Models of Electronic Devices     | 311        |
|                 | 11. Electronic Amplifiers                   | 343        |
|                 | 12. Nonlinear Devices and Applications      | 391        |
|                 | 13. Digital Devices and Logic Circuits      | 421        |
| <b>PART III</b> | <b>Electromagnetic</b>                      |            |
|                 | 14. Energy Conversion Phenomena             | 457        |
|                 | 15. Magnetic Fields and Circuits            | 471        |
|                 | 16. Transformers                            | 493        |
|                 | 17. Principles of Electromechanics          | 521        |
|                 | 18. Performance of Rotating Machines        | 557        |
| <b>PART IV</b>  | <b>Systems</b>                              |            |
|                 | 19. Amplifiers as Feedback Systems          | 607        |
|                 | 20. Analog Computers                        | 637        |
|                 | 21. Instruments and Instrumentation Systems | 653        |
|                 | 22. Automatic Control Systems               | 685        |
| <b>Appendix</b> | Physical Constants                          | 721        |
|                 | Conversion Factors                          | 721        |
|                 | Color Code For Resistors                    | 722        |
|                 | Preferred Resistance Values                 | 722        |
|                 | Tube and Transistor Characteristics         | 723        |
|                 | Answers to Selected Exercises               | 731        |
| <b>Index</b>    |   | <b>737</b> |
