

Table of Contents and List of Illustrations

0.	Cover Page	
1	Summary	1
2.	Table of Contents and List of Illustrations	3
3.	Introduction	7
4.	Windpower Use in Thailand, Past and Present	11
5.	The Winds and Related Resource Data for Thailand	21
6.	Irrigation in the Chao Phya Delta Using Windpower and Commercially Available Windpumpers	25
7.	Proposed New Wind Pumpers for Dry Season Irrigation in Thailand	37
8.	On the Generation of Electricity by Windpower Over the Chao Phya Delta and Central Plain	52
9.	On the Generation of Electricity by Windpower Over the Gulf of Thailand	53
10.	Irrigation Via Windpower in the Philippines	57
11.	The Ocean Thermal Differences Process, Thailand and Philippines: A Major Energy Possibility for the Future	59
12.	Vertical Axis Wind Machines	62
13.	Conclusions	66
14.	Recommendations	70
15.	References	73
16.	Appendix 1: Monthly Velocity-Duration Curves, <u>Nakhon Sawan</u> , plus Energy Calculation Sheets, Showing Energy in a 6 Meter Diameter Swept Area at 10 Meter Axis Height.	1-1
17.	Appendix 2: Monthly Velocity-Duration Curves, <u>Don Muang</u> , Pessimistic Curve Shape Versus Simplistic But Perhaps Optimistic Curve Shape.
