

Contents

Foreword	v
Preface	vii
1 Introduction and Economics	1
2 Heat, Temperature, and Heat Flow	9
3 Thermal Resistance	19
4 Conduction and Convection	23
✓ 5 Radiation and Transport	31
6 Thermal Storage	37
7 House Heating	43
8 House Heat Losses	49
✓ 9 Solar Radiation	55
10 Solar Collector Orientation	59
11 A Simple Solar Collector	65
12 A Solar Heating System	71
13 Solar Heating Applications	77
14 Glazing and Selective Surfaces	81
15 Nighttime Heat Loss	87
16 A Typical Day: Morning	91
17 A Typical Day: Afternoon	97
18 Using Stored Heat	101
19 Air-heating Solar Systems	107
✓ 20 A Passive System—Direct Gain	115
21 Passive Solar: The Diode Function	121
22 Passive Solar: The Control Function	127
23 The Thermic Diode	133
24 Reflecting Solar Radiation	139
25 Which Solar Heater?	145
Glossary	151
Index	163
