

CONTENTS

1. Non-Fossil Energy-A Practical Idea	1
2. Solar Energy	7
3. Flat Plate Collectors	12
4. Solar Energy for self-sufficiency	19
5. Air Conditioning, The Key to Domestic Solar Energy	25
6. What's Next?	29
7. Direct Conversion to High Quality Heat	35
8. Electricity Directly from the Sun	43
9. Wind As an Energy Resource	57
10. How engineers Design Windmills	66
11. Windmill Types	75
12. Utility Exploitation of the Wind Energy Resource	88
13. Odds and Ends	96
14. Earth-Derived Energy Resources	103
15. A Look at the Future	110
16. Utility Response to Non-Fossil Energy	117
