Introduction	
Structural Design of Precast Concrete Box Sections for Zero to Deep Earth Cover Conditions and Surface Wheel Loads—F. J. HEGER AND K. N. LONG	3
Discussion and Application of CANDE Computer Program to Design of Reinforced Concrete Culverts—M. G. KATONA	
Bedding and Backfilling of Buried Pipe Conduits— M. G. SPANGLER	
Evaluating Four Types of Soil-Structure Conduit Systems— T. K. BREITFUSS	48
A Study of Soil-Structure Interaction of Buried Concrete Pipe— R. A. PARMELEE	66
Assessment of Soil Constitutive Models for Numerical Analysis of Buried Concrete Pipe Systems—R. J. KRIZEK AND D. K. ATMATZIDIS	76
Analysis and Measurement of Soil Behavior Around Buried Concrete Pipe—R. B. COROTIS AND R. J. KRIZEK	91
Computer-Aided Structural Analysis and Design of Concrete Pipe— T. H. WENZEL AND R. A. PARMELEE	105
A New Design Method for Buried Concrete Pipe—R. A. PARMELEE	119
Summary	131
Index	135
