

CONTENTS

	Page
Introduction	1
Selection and Use of Wear Tests for Coatings	3
Wear Testing of Abrasion-Resistant Coated Plastics	16
Solid Particle Erosion of Coatings on Transparent Polycarbonate and Reinforced Composites	28
Wet-Sand Rubber-Wheel Abrasion Test for Thin Coatings	71
Assessment of the Wear of Composite Coatings in Reciprocating Line Contact condition	92
Wear Characteristics of Industrial Platings	118
Dry Sliding Wear Studies of Nickel-Phosphorous and Chromium Coatings on O-2 Tool Steel	134
Methods of Evaluating Materials for Icebreaker Hull Coatings	157
Summary	174
Index	177
