	PAGE		PAGE
Introduction .. .. .	5	18a. Multi-spindle Automatics (Rotary Work and Stationary Tools) .. .. .	63
Principles of Acceptance Tests .. .. .	5	18b. Multi-spindle Automatics (Stationary Work and Rotary Tools) .. .. .	65
The Machine Tool under Load .. .. .	6	19. Vertical Boring Mills (Vertical Lathes) .. .. .	66
Execution of Acceptance Tests .. .. .	7	20. Double-standard Vertical Boring Mills .. .. .	68
Measuring Equipment and Methods:		GRINDING MACHINES (21-26)	
Dial Gauges .. .. .	8	21. Cylindrical Grinding Machines .. .. .	70
Test Mandrels .. .. .	9	22. Planer-type Surface Grinders .. .. .	71
Straight-edges and Squares .. .. .	10	23. Vertical Surface Grinders .. .. .	72
Spirit Levels .. .. .	10	24. Surface Grinders with Horizontal Wheel Axis .. .. .	
Level Measurement by Water Level .. .. .	12	25. Surface Grinders with Vertically Adjustable Horizontal Wheel Spindle .. .. .	
Alignment by Wire and Measuring Microscope .. .. .	13	26. Universal Tool and Cutter Grinders .. .. .	75
Alignment by Telescope and Target .. .. .	13	DRILLING AND HORIZONTAL BORING MACHINES (31-38)	
Magnitude and Direction of Tolerances .. .. .	14	31. Upright Drilling Machines .. .. .	
Straightness of Slideways and Flatness of Tables .. .. .	14	32. Pillar Type Drilling Machines .. .. .	77
Alignment and True Running of Shafts .. .. .	16	33. Multi-spindle Drilling Machines .. .. .	78
Lead or Pitch Error of Lead-screws .. .. .	17	34. Radial Drilling Machines .. .. .	
Pitch Errors of Gears and Dividing Errors of Dividing Heads .. .. .	19	35. Horizontal Boring Machines with Spindles up to 80 mm. (about 3 $\frac{1}{8}$ in.) diameter .. .. .	81
Details for Testing Various Machine Tools .. .. .	20	36. Horizontal Boring Machines with Spindles more than 80 mm. (about 3 $\frac{1}{8}$ in.) diameter .. .. .	82
Surface Quality .. .. .	44	37. Horizontal Boring Machines with Adjustable Columns .. .. .	
Power Requirements, Speeds and Feeds .. .. .	44	38. Horizontal Boring Machines with Fixed Headstocks .. .. .	
<b>MILLING MACHINES (1-4) AND GEAR CUTTING MACHINES (6-7)</b>		PLANING, SHAPING, AND SLOTTING MACHINES (41-44)	
1. Knee-type Horizontal Milling Machines and Universal Milling Machines .. .. .	45	41. Planing Machines (Double Standard) .. .. .	84
1a. Dividing Heads .. .. .	46	42. Openside Planing Machines .. .. .	85
2. Surface Milling Machines .. .. .	47	43. Shaping Machines .. .. .	87
3. Vertical Milling Machines .. .. .	48	44. Slotting Machines .. .. .	88
4. Thread Milling Machines .. .. .	49	SHEARING, PUNCHING, STAMPING MACHINES AND PRESSES (51-53)	
6. Spur, Worm and Helical Gear-hobbing Machines .. .. .	50	51. Open-fronted Power Presses and Punching Machines .. .. .	89
7. Gear Shapers .. .. .	52	52. Double-Standard Power Presses and Punching Machines .. .. .	90
<b>CENTRE LATHES, TURRET LATHES, MULTI-SPINDLE AUTOMATICS, VERTICAL BORING MILLS (11-20)</b>		53. Shearing Machines and Guillotines .. .. .	90
11. Finish Turning Lathes up to 400 mm. (about 15 $\frac{1}{2}$ in.) Height of Centres .. .. .	54	WOODWORKING MACHINES (61-70)	
12. Finish Turning Lathes with from 400 to 800 mm. (about 15 $\frac{1}{2}$ in. to 32 in.) Height of Centres .. .. .	55	61. Circular Saws, Edging Saws, Cross Cutting and Trenching Machines .. .. .	91
13. Tool-room Lathes (highest degree of accuracy) up to 200 mm. (about 8 in.) Height of Centres .. .. .	56	62. Band Saws .. .. .	92
14. Backing-off or Relieving Lathes .. .. .	57	63. Fret Saws .. .. .	93
15. Facing Lathes .. .. .	58	64. Frame Saws, Multi-blade .. .. .	93
16. Turret Lathes arranged* for Cylindrical Tool Shanks in the Turret Heads, and Single-spindle Automatic Turret Lathes up to 300 mm. (about 12 in.) Height of Centres .. .. .	60	65. Surface Planing Machines .. .. .	94
16a. Turret Lathes with Hollow Turret Heads provided with Centring Recesses for Tool Holders up to 300 mm. (about 12 in.) Height of Centres .. .. .	61	66. Thicknessing Machines .. .. .	94
17. Turret Lathes arranged of Cylindrical Tool Shanks in the Turret Heads and Single-spindle Automatic Turret Lathes with more than 300 mm. (12 in.) Height of Centres .. .. .	62	67. 4-Cutter Planing and Moulding Machines .. .. .	95
17a. Turret Lathes with Hollow Turret Heads provided with Centring Recesses. Height of Centres more than 300 mm. (12 in.) .. .. .	63	68. Vertical Spindle Moulders .. .. .	95
		69. Chain Mortising Machines .. .. .	96
		70. Wood Turning Lathes .. .. .	96
		RECENT DEVELOPMENTS IN MACHINE TOOL TESTING	97
