List of Figures	xi
Preface	xv
Acknowledgments	xvii
Chapter 1. An Introduction to Abrasives	1
1.1 Abrasives in Our Everyday Lives	2
1.2 The History of Abrasives	2
1.3 The World Market in Abrasives	6
Chapter 2. The Manufacture and Properties of Abrasives	9
2.1 Introduction	9
2.2 Silicon Carbide	9
2.3 Aluminum Oxide (Fused)	12
2.4 Aluminum Oxide (Ceramic)	14
2.5 Cubic Boron Nitride (CBN)	15
2.6 Diamond	19
2.7 The Properties of Abrasives	21
2.8 Concentration	23
2.9 Vitrified-Bonded Grinding Wheels	26
2.10 Resin-Bonded Grinding Wheels	<u>30</u>
2.11 Rubber-Bonded Grinding Wheels	<u>31</u>
2.12 Metal-Bonded Grinding Wheels	31
2.13 Abrasive Belts—Coated Abrasives	34
2.14 Backing Materials for Coated Abrasives	36
2.15 Adhesives for Coated Abrasives	36
2.16 The Manufacture of Coated Abrasives	37
2.17 The Storage of Coated Abrasives	39
Chapter 3. Abrasive Preparation	41
3.1 Grinding Wheel Preparation—Mounting	41
3.2 Fitting a Coated Abrasive Belt	50
3.3 Grinding Wheel Conditioning	50

3.4	Single Point Dressing	55
3.5	Crush Dressing	64
3.6	Diamond Roll Dressing	67
3.7	Continuous Dressing	85
3.8	EDM Dressing Metal Bond Systems	85
Chapter 4. Fundamentals of Grinding		89
4.1	A Micro-milling Analogy	89
4.2	Energy Used for Grinding	94
Chapter 5. Grinding Machine Tool Design		103
5.1	Introduction	103
5.2	An Historical Perspective	104
5.3	Creep-feed Grinding Machine Design	106
5.4	High-speed Grinding Machine Tool Design	109
5.5	Vibration in Machine Tools	110
5.6	The Next Generation Grinding Machine	112
5.7	Computer Numerical Control (CNC)	116
Chapter 6. Cutting Fluid Application and Filtration		121
6.1	The Role of the Cutting Fluid	121
6.2	Filtration of the Cutting Fluid	127
6.3	Types of Cutting Fluid	129
Chapter 7. Cylindrical Grinding Processes		133
7.1	Outside Diameter (OD) Grinding	133
7.2	Plain Cylindrical Grinding	135
7.3	Plunge Cylindrical Grinding	142
7.4	Angle Approach Grinding	149
7.5	Internal Diameter (ID) Grinding	153
7.6	Cam Grinding	153
7.7	In-process Gaging	157
Chapter 8. Flat Surface Grinding Processes		161
8.1	Reciprocating Grinding	161
8.2	Form Surface Grinding Processes	172
8.3	Creep-feed Grinding	175
8.4	Speed-feed Grinding	181
Chapter 9. Special Grinding Processes		185
9.1	Centerless Grinding	185
9.2	Tool and Cutter Grinding	188
9.3	Electrolytic Grinding	190

9.4 Honing and Super-finishing	192
9.5 Snagging and Cut-off	194
9.6 Double-disk Grinding	195
9.7 Lapping and Free-abrasive Machining	199

Chapter 10. Coated Abrasive Processes	201
--	------------

Chapter 11. Surface Finish and Integrity Measurement	207
---	------------

Glossary	215
----------	-----

Index	223
-------	-----
