

## *Contents*

ACKNOWLEDGMENTS	ix
.. INTRODUCTION	
2. BASIC ROCK DESTRUCTION MECHANISMS	3
Mechanically Induced Stresses	3
Thermally Induced Stresses	4
Fusion and Vaporization	7
Chemical Reactions	8
CRUSHING AND DRILLING-RATE EQUATIONS	9
Crushing Equations	9
Drilling-rate Equations	10
4. PERFORMANCE CHARACTERISTICS OF CONVENTIONAL DRILLS	11
METHODS OF DRILLING AND BREAKING ROCK BY MECHANICALLY INDUCED STRESSES	15
Turbine Drills	15
Pellet Drills	18
Continuous Penetrators	21
Implosion Drills	23
Spark Drills	24
Electrohydraulic Crushers	29
Explosive Drills	30
Erosion Drills	39
Ultrasonic Drills	44

6. METHODS OF DRILLING AND BREAKING ROCK BY THERMALLY INDUCED STRESSES	50
Jet-piercing Drills	50
Forced-flame Drills	53
Electric Disintegration Drills	55
Terra-Jetter Drills	57
High-frequency Electric Drills	58
Microwave Drills	65
Induction Drills	68
7. METHODS OF DRILLING AND EXCAVATING ROCK BY FUSION AND VAPORIZATION	73
Electric Heater Drills	73
Nuclear Drills	75
Electric Arc Drills	77
Plasma Drills	81
Electron Beam Drills	84
Laser Drills	87
CHEMICAL METHODS OF DRILLING AND EXCAVATING ROCK	92
9. CRITIQUE OF NOVEL DRILLING METHODS	94
APPENDIX 1. POWER AND ENERGY REQUIREMENTS FOR NOVEL DRILLING METHODS	101
APPENDIX 2. CONVERSION TABLE	106
REFERENCES	107
