

CONTENTS

Section 15. Compressed Air Practice	14
Section 16. Electric Power For Mine Service	08
Section 17. Surveying	16
Section 18. Underground Surveying	05
Section 19. Mine Geologic Maps and Models	11
Section 20. Mine Organization and Accounts	04
Section 21. Cost of Mining	41
Section 22. Wages and Welfare	11
Section 23. Mine Air, Gases, Dusts, hygiene, Explosions, And Accidents	15
Section 24. Mining Laws	03
Section 25. Mine Examinations, Valuations, and Reports	08
Section 26. Aerial Tramways and Cableways	08
Section 27. Underground Mechanical Loading, Conveying, And Handling	25
Section 28. Breaking, Crushing, And Sorting of Ores	08
Section 29. Ore Sampling	03
Section 30. Assaying	07
Section 31. Testing of Ores	05
Section 32. Selling, Purchasing, And Treatment of Ores	06
Section 33. Gold Amalgamation and Cyanidation	06
Section 34. Preparation and Storage of Anthracite Coal	06
Section 35. Preparation and Coking of Bituminous Coal	03
Section 36. Mathematics and Mechanics	08
Section 37. Chemical and Physical Notes and Tables	08
Section 38. Elements of Hydraulics	04
Section 39. Engineering Thermodynamics	09
Section 40. Power and Power Machinery	09
Section 41. Mechanical Engineering Miscellany	09
Section 42. Electrical Engineering	05
Section 43. Elements of Structural Design	07
Section 44. Petroleum Production Methods	03
Section 45. Engineers' Tables	45
