

Contents

Preface	v
List of Contributors .	xi
List of Abbreviations	xiii
INTRODUCTION TO ENHANCED OIL RECOVERY	
1 Oil entrapment and mobilization C. M. Marle	3
IMPROVED WATERFLOOD: THE CHEMICAL PROCESSES	
2 Mobility control by polymers G. Chauveteau and K. S. Sorbie	43
3 Reduction of capillary forces by surfactants G. A. Pope and M. Bavière	89
4 The use of alkaline agents in enhanced oil recovery processes J. Labrid	
MISCIBLE GAS DISPLACEMENT	
5 Thermodynamics F. M. Orr, Jr	
6 Miscible gas flooding D. Morel	

- 7 Carbon dioxide flooding . . .**
M. A. Klins and C. P. Bardon

THERMAL RECOVERY

- 8 Thermo-chemical alteration of crude oils**
A. Audibert and S. Vossoughi

- 9 Hot fluid injection**
C. Gabelle and L. M. Castanier

- 10 In-situ combustion**
J. Burger

UNCONVENTIONAL EOR TECHNOLOGIES

- 11 Unconventional EOR concepts**
G. J. Stosur

CONCLUSIONS ON THE MAIN EOR PROCESSES

- 12 Methodology and screening criteria—implementation of EOR processes**
P. Chaumet and R. H. Cottin
