

CONTENTS

Preface	ix
1. Cation Exchange, Surfactant Precipitation, and Adsorption in Micellar Flooding	1
Robert D. Walker, Jr., M. K. Tham, M. C. Lee, and W. E. Ray	
2. The Influence of Surfactant Structure on Low Interfacial Tensions ..	17
Peter H. Doe, Mahmoud M. El-Emary, William H. Wade, and Robert S. Schechter	
3. Phase Behavior of a Pure Alkyl Aryl Sulfonate Surfactant	35
E. I. Franses, H. T. Davis, W. G. Miller, and L. E. Scriven	
4. Colloidal Properties of Sodium Carboxylates	75
W. H. Baldwin and G. W. Neal	
5. Experimental Thermochemistry of Oil Recovery Micellar Systems ..	87
R. L. Berg, L. A. Noll, and W. D. Good	
6. Participation of Selective Native Petroleum Fractions in Lowering Interfacial Tensions of Aqueous Alkaline Systems	103
P. A. Farmanian, N. Davis, J. T. Kwan, R. M. Weinbrandt, and T. F. Yen	
7. Spontaneous Emulsification and the Effect of Interfacial Fluid Properties on Coalescence and Emulsion Stability in Caustic Flooding	115
D. T. Wasan, S. M. Shah, M. Chan, K. Sampath, and R. Shah	
8. Comparison of Solution Properties of Mobility Control Polymers ...	141
Esref Unsal, John Larry Duda, and Elmer Erwin Klaus	
Index .	171
