EDITOR'S NOTE	vii
ACKNOWLEDGEMENTS	ix
INTRODUCTION	xi
HOW MINERALS OCCUR	
<i>How Minerals are Obtained</i> <i>Open working</i> <i>Underground mining</i> <i>Placer mining</i> · <i>Pumping</i>	
2. THE ECONOMICS OF MINING	17
3. PROSPECTING AND DEVELOPMENT OF NEW SOURCES	23
4. IRON AND STEEL MINERALS	
<i>What are Iron and Steel?</i>	
<i>Smelting of Iron</i>	
<i>Steelmaking</i> · <i>The Bessemer process</i> · <i>The Open-hearth process</i> · <i>The Electric-arc furnace</i> · <i>The L-D process</i> · <i>The Kaldo process</i> · <i>The Electric-induction furnace</i> · <i>Location of Mining and Smelting Areas</i>	
<i>Iron Ore</i> · <i>North America</i> · <i>South America</i> · <i>The U.S.S.R.</i> · <i>Europe</i> · <i>Asia</i> · <i>Africa</i> · <i>Australia</i>	
<i>Alloy Minerals</i> · <i>Manganese</i> · <i>Chrome</i> · <i>Nickel</i> · <i>Tungsten</i> or <i>wolfram</i> · <i>Molybdenum, cobalt and vanadium</i>	
5. THE COMMON NON-FERROUS METALS	53
<i>Copper</i>	
<i>Lead and Zinc</i>	
<i>Tin</i>	
<i>Aluminium</i>	
<i>Magnesium</i>	
6. PRECIOUS MINERALS	76
<i>Precious Metals</i>	
<i>Diamonds</i>	

Contents

7. NON-METALLIC RAW MATERIALS	89
<i>Asbestos</i>	
<i>Sulphur</i>	
<i>Salt</i>	
<i>Fertilizer Raw Materials · Nitrates · Potash · Phosphates · Lime</i>	
<i>Kaolin</i>	
8. MATERIALS FOR BUILDING AND ROADMAKING	103
<i>Stone</i>	
<i>Brick Clay</i>	
<i>Sand and Gravel</i>	
<i>Cement</i>	
<i>Asphalt</i>
